

## Youths' Disabilities Receive Attention In Dexter's Child Developmental Center

BY CAROL WERNECK  
DEXTER—Children who participate in programs at the Child Developmental Center are mainly youngsters of average or superior intelligence who have disabilities which cause them to fail in conventional classrooms. Some do outgrow difficulties in speech, hearing or motor skills, but many more become learning casualties when they could lead normal lives, with the help of developmental training.

A child with developmental disabilities needs to have attention early. Often an inability to keep up with other children in the classroom will frustrate a child.

The center is on One Mile Road in the lower level of the Jibben Medical Arts building.

The center serves a 12-county area including 58 school districts. Counties served by the center are Dunklin, Pemiscot, New Madrid, Stoddard, Butler, Ripley, Carter, Wayne, Mississippi, Scott, Cape Girardeau and Ripley.

The center uses team teaching approaches in speech pathology, auditory training, reading specialization and physical therapy.

It measures the intellectual, social and emotional development of children, and interprets the results through vocational guidance programs, individual inventory and guidance and assistance in general planning of guidance programs.

Speech and hearing evaluation are offered at the center and at area schools.

The center has three mobile units, which will travel to schools in the 12-county area served on request of a school administrator to help children or to assist personnel in the school in setting up programs for developmental guidance.

Upon request, personnel from the center will go to a school

district to explain and discuss the services available and present a handbook to describe the services in depth.

There is a mobile unit equipped for speech and hearing, one equipped for clinical reading and one for guidance and counseling.

The mobile units are helpful, Mrs. Mary Jo Richmond, center director, says, because "we can go to a school district and get right to work. We don't have to spend half of the morning getting set up in a room at the school."

The center is equipped to diagnose reading disabilities. Personnel at the center will work with individuals or assist remedial reading teachers in general planning and evaluation.

A physical therapist is on hand at the center to work with children or to help physical education or special education teachers set up programs.

The staff at the center includes Mrs. Richmond; Miss Helen Sue Ayres, speech pathologist; Mrs. Laurine Coffman, reading specialist; Cliff Manlove, counselor; Mrs. Joyce Yates, speech pathologist; Mrs. Dorothy Estes, reading specialist; Mrs. Julie Minton, physical therapist; Jack Smarr, media technician and Mrs. Marilyn Tuely, secretary.

Miss Vicki Gisi is an aide employed for the summer and Miss Robin Walters of Sikeston will be employed as a speech pathologist in August.

A consulting team from the Malcolm Bliss Mental Health Center in St. Louis assists at the center periodically.

Members of this team are: Dr. Barbara Herjanic, child psychiatrist; Miss Bernice Collins, psychiatric social worker; Mrs. Ruth Zimmerman, psychiatric nurse; Mrs. Gloria Gilbert, education consultant for emotionally disturbed and Miss Dorothy Ogline, social worker.

DEVELOPMENT OF COORDINATION is one goal at the Child Developmental Center in Dexter. Practicing on the balance beam area on the left, Steven Moore and Warren Ragsdale. On the right beam are Steven Botsch, Lanny Maddox and Lynn Porter.

MARK NEWMAN listens to sounds over a Hoffman Reader. Mrs. Dorothy Estes, reading specialist, assists him. This is part of the reading program at the Child Developmental Center in Dexter.

## Hoover Points out Red Chinese Threat

### One Killed Over Holiday Weekend

James Lawrence Poindexter, 47, Chicago, was dead on arrival at Pemiscot County Memorial Hospital, Hayti, as a result of a highway accident at 5:55 p.m. Sunday on Hwy. 61, three miles north of Hayti.

Poindexter, driving a 1966 Oldsmobile, was in the left lane when he lost control of his vehicle. The rear of his car was hit by a 1967 Buick, driven by Alex Johnson, 58, Jackson, Miss. Johnson was not injured.

The Poindexter car ran into a ditch and turned on its top, while the Johnson car stopped on the highway shoulder.

Poindexter was taken to the Osburn Funeral Home in Hayti. In a two-car collision at 11:40 a.m., Sunday on Hwy. 61, three miles south of Perryville, six were hospitalized and three were treated and released from a hospital.

Treated at Perry County Memorial Hospital and transferred to a St. Louis hospital were the Loren L. Steele family, Belleville, Ill. Steele, 28, is in critical condition with head, face and internal injuries. Mrs. Steele, 27, had facial cuts and bruises. Their children hospitalized were: Loren, 10, nose injury; Dana, 9, head injury; Marilyn, 4, possible head injury; and Kevin, 7, forehead cut.

WASHINGTON (AP) — Communist China has singled out the United States as its No. 1 enemy and is working to tap needed scientific information here by any means, FBI Director J. Edgar Hoover says.

"The potent threat to our national security posed by Red China still exists," is the way Hoover phrased it. "In fact, the blatant, belligerent and illogical statements made by Red China's spokesmen during the past year leave no doubt that the United States is Communist China's No. 1 enemy."

Hoover's warning was delivered behind closed doors last April to a House Appropriations subcommittee. His testimony was released today.

This bitterness towards the United States and other Western countries—even the Soviet Union—is a factor in Red China's ambition to equal other major powers economically, militarily and, especially, in scientific endeavors," Hoover said.

This goal, Hoover said, has resulted in Chinese Communist intelligence activities here — overt as well as covert—to get needed material, particularly in the scientific field.

The FBI chief said one clandestine effort was thwarted in 1967 when an effort was made to send electronic equipment to Hong Kong by way of Canada.

Hoover said informants have made "deep penetrations in intelligence operations" in this country by Communist countries, particularly the Soviet Union, Cuba and Red China.

But, without specifying which countries, Hoover said these Communist intelligence services also try to penetrate his own FBI, the CIA, State and

Defense Departments. He didn't mention the degree of success.

Turning to Communist China, Hoover said:

"Red China has been flooding the country with its propaganda and there are over 300,000 Chinese in the United States, some of whom could be susceptible to recruitment either through ethnic ties or hostage situations because of relatives in Communist China."

In addition, up to 20,000 Chinese immigrants can come here each year "and this provides a means to send illegal agents into our nation." He said there are active Chinese Communist sympathizers in the Western Hemisphere in a position to aid in operations against this country.

A growing problem concerns the 40,000 Hong Kong based Chinese seamen, many actually living on the China mainland. "We are aware of situations where they have served as couriers in intelligence operations."

On any given day, Hoover said, three-fourths of these crewmen are on ships around the world and about 27,000 are members of the Chinese Communist-dominated Hong Kong Seamen's Union.

"Although it is not necessary for a seaman to desert ship to perform an intelligence assignment," Hoover said, "it is noted that there were over 700 desertions by Chinese crewmen in the United States in fiscal 1967, and this accounted for more than 80 per cent of the total desertions by Chinese crewmen throughout the world during that year."

## Twelve Emergencies

Nine of twelve persons treated at Missouri Delta Community hospital over Saturday and Sunday, were for dog bites and leg injuries.

Treated Saturday were Elsie M. Walters, Portageville, barbecue pit exploded, burning right side of body; Joseph W. Higgs, Indianapolis, Ind., caught toe on spring of car; Kendra L. Hawkins, struck head on table while running; Allen McBride, Charleston, treated for dog bite; Rusty Ramsey, El Paso, Tex., cut left foot on object in water; Robert Heil, Anaheim, Calif., bitten by dog.

Treated Sunday were Ronnie Williams, Charleston, injured toe while riding bicycle; Larry Robinson, cut foot on glass; Curtis Baker, Hollister, cut toe on glass; Tony Brock, Lilbourn, bitten by insect; Stanley Sorrells, injured right hand playing ball; Raymond Jones, New Madrid, injured right knee in fall on concrete.

## Juveniles Arrested

Two Sikeston juvenile boys were arrested Saturday afternoon for stealing a billboard at the Jaycee Swimming Pool and breaking into the Felker Coin Wash on Tanner Street. The billboard was reported stolen last Monday.

The juveniles were arrested by Scott County Deputy Sheriff Gerald Inman and Juvenile Officer Fred Glover.

## Nursing Home Petition Being Circulated

Abram Hirschowitz, Oran businessman, is circulating a petition for a nursing home for the elderly in Scott County.

Funds for the home will come from several government sources, if passed by the voters. Scott County will be obligated to pay only 20 per cent of the proposed \$500,000 cost.

Several Scott County citizens have jointly offered 50 acres of land for the home, if the issue passes.

Local tax-payers were told by state officials in Benton, last February, that the homes are usually self-sustaining with 60% occupancy.

The home will house 150 patients and will provide 24 hour nursing care for residents.

Those eligible for the home's services include citizens on medicare, Medicaid, and welfare. A special fund will be available for those who can't afford to pay.

Hirschowitz stated this morning he lacks only 150 signatures of the 1020 needed. He hopes to soon turn the petition in to the county court in Benton for approval.

## News Briefs

### Hoover Seeks More Agents

WASHINGTON (AP) — FBI Director J. Edgar Hoover has asked Congress for another 525 lawyers and accountants, and possibly a few linguists and chemists, to add to his corps of special agents.

Hoover also wants 336 additional clerks, and if the friendly reception he got before a House appropriations subcommittee is an indication, the FBI's manpower will be increased this year to a record 17,345 employees.

Testimony released today of Hoover's appearance before the subcommittee last April 17 showed the FBI director asked for almost \$233 million for fiscal 1970, a record budget supported by President Nixon.

The reason given for the \$13.2 million increase—one of the few budget raises proposed by the new administration—was to beef up the FBI's drive against organized crime.

Chairman John J. Rooney, D-N.Y., said Hoover's presentation justified the FBI's request, and the nine other subcommittee members were also full of praise.

### Holiday Traffic Kills 591

By THE ASSOCIATED PRESS

Traffic accidents killed 584 persons over the holiday weekend, more than any other three-day Fourth of July holiday period.

The death toll surpassed the old three-day record of 576, set in 1966. It fell far short of the all-time Fourth of July record of 732, set in 1967 when the holiday was four days long.

An Associated Press survey taken two weeks ago on a nonholiday weekend counted 435 traffic fatalities.

Last weekend's count, which extended from 6 p.m. Thursday to midnight Sunday, confirmed the National Safety Council's prediction that between 550 and 650 would die on the highways.

### Soviet Warships to Visit Cuba

MOSCOW (AP) — A Soviet naval squadron will visit Cuba July 20-27 at the invitation of Havana, the official Soviet news agency Tass announced today. Western military experts said it would be the closest visit to the United States ever by Soviet warships.

The brief Tass announcement said the squadron would consist of a rocket-carrying cruiser, two submarines, a tender and a tanker. Tass said the ships now are making a training cruise in the central Atlantic.

The appearance of Soviet warships in Cuba, 90 miles from the United States, seemed intended to back up the Soviet Union's claim that it is now a world naval power. Western observers also speculated it might be intended as a form of retaliation for President Nixon's planned visit to Romania in August.

## \$171,702.00 In Welfare Payments

The Scott County Welfare Office reports 165 child welfare services, 52 protective services, 50 foster home cases and 63 services to adoptive and unmarried mothers and supplementary services for June. Mrs. Cathleen Gipson, county welfare director, lists 2218 total welfare cases with total aid \$171,702.00. The caseload is divided into categories follows:

1334 cases of old age assistance, \$92,073.00 amount of payment, \$69.02 payment per case.

457 cases with 1397 children if aid to dependent children, \$49,562.00 amount of payment, \$108.45 payment per adult, \$35.41 payment per child. 169 cases involving 184 persons for general relief, \$10,711.00 amount of payment, \$63.38 payment per case, \$58.11 payment per person. 224 cases of permanent and total disability, \$16,426.00 amount of payment, \$73.33 payment per case. 33 cases of aid to the blind, \$2,845.00 amount of payment, \$85.00 payment per case. One case of blind pension at \$85.00 was reported.

### Patmor Honored

### With Life Membership

James T. Patmor, 1216 Sikes, has been named awarded a life-time membership with the Southeast Chapter of Missouri Society of Certified Public Accountants.

The announcement was made Saturday by Thomas J. Cox, Poplar Bluff, president of the organization.

Patmor was cited for being instrumental in the passage of legislation that has benefited the individual practitioner and small firm men. Patmor was the first accountant in Southeast Missouri to pass the CPA examination.

"His dedication to the profession and his work to further its goals has been an inspiration to others in the profession," Cox said.

O. D. Clayton, manager of the Sikeston Chamber of Commerce, has returned from a Memphis, Tenn., hospital and is recuperating from back surgery. Clayton said last week he expects to return to his job within 10 days.

## Shaw Says I-55 Bids Open Soon

The highway department hopes to have land purchases made so bidding can open in August for the construction of Interstate 55 between Fruitland and the Perry County line, Wm. H. Shaw, executive engineer, District 10 Highway Department, said.

Work on Interstate 55 in Scott and Cape Girardeau Counties is 50 per cent complete. Work on center stripes should begin this week.

Old route 61 in Pemiscot County is being resurfaced and is receiving new shoulders. This route will eventually be used as the southbound lane of I-55.

This month, the highway department will accept bids for the installation of basic lighting at the Miner interchange and at the Scott County interchange.

Bids were received for this a few months ago, but they were excessive, so they were rejected.

Work is progressing slowly on the Mississippi River Bridge in Cape Girardeau. Painting is still in progress and is 55 per cent complete.

ONE OF THE THREE MOBILE UNITS owned by Dexter's Child Developmental Center is a speech and hearing facility. There is another unit for guidance and counseling and one for clinical reading. Women at the Center drive these units to area schools on request of a school administrator.

### Busch Sends Buffaloes to Old Friend LBJ

ST. LOUIS (AP) — An old friend of Lyndon Baines Johnson is sending the former president a gift.

August A. Busch, Jr., president of Anheuser-Busch, Inc., ordered four Bisons to be shipped today to Johnson State Park adjoining the LBJ ranch near Johnson City, Tex.

The shaggy two-year-old buffaloes will be added to a small herd already at home on

several hundred acres of grazing land across the Perdenales River from the LBJ ranch.

The park was opened recently as a memorial to the 36th president, whose birthplace is nearby.

A spokesman for Busch said that he and the president "have been swapping horses and cattle for years."

Busch purchased the buffalo recently at Piedmont, Mo.

# POOR CHARLIE SAYS! SUMMER

The solstice arrived on schedule and the weeks of summer lie ahead. "Good old summer time," countrymen said. This is the period when crops push toward maturity, when apples resemble green golf balls on the boughs, and clusters of jade jewels shine among tomato leaves.

Time seems to fly faster than man-made machines. Only a few weeks ago earth was warning after a winter; only a few weeks ago ribbons of dark soil curled away from ploughshares. It seems but yesterday when a man was dropping his potato seed for the crops of Early Rose and Irish Cobblers.

Now it is summer. Dawns are moist and cobwebs make patterns on the lawns. Hedgerows and woodlands are filled with the flutterings of birds. Shorn meadows and upland fields lie brown and listless in the heat of midday.

Grasshoppers take off on circling flights and the staccato monotone of beating wings carries far in the brooding, humid air. Crickets fiddle in the aster bed beneath kitchen windows and Monarch butterflies circle above patches of milkweed.

One can feel the power of maturing life in the fields and gardens. It isn't the pulsing urgency of spring; it is steady, determined forward march. The rhythms that govern our flowering world were set in motion long ago. Summer is one of the rhythms.

A man cannot define a season of life. All he can do is live it and extract the deeper meanings as best he can.

Financial Statement. In Abilene, Texas, after four burglaries at his St. Paul Methodist Church, Pastor Earl Hamlet announced through the columns of the Reporter News: "We do not keep our collection money in the church safe... Pickings (there) are either very slim or non-existent and never worth the trouble, regardless."

State Police report: 1968 deaths reach an all time high (almost a national report for all states)

The consumer has little knowledge of the expense and effort involved in the introduction of a new product which he casually accepts as a mark of progress.

Executives of Pilot Products Industries, Inc. recently described the immense amount of planning and cost which went into the promotion of a new cooking oil.

The company, which specializes in the introduction of new products, first had to determine if the public was fully satisfied with existing products -- and why, or why not. This step called for a costly survey of representative housewives.

Next, proof had to be offered to the potential manufacturer that a product it had developed would fill a need which was not being filled. This step consisted of actually bottling the new product and distributing it to a sample of housewives for testing.

After the oil had been used under various cooking conditions, reactions from the housewives were obtained through intensive interviewing. The interviews provided information for possible modification of the product. They suggested approaches to advertising and inspired a name which was appealing and in keeping with the outstanding features of the product.

After the design of an appropriate package the long process from manufacture to final sales began. This involved advertising in trade and national media to establish a general demand for the product. The work of personal salesman placed the product with wholesalers and retailers.

But the final test came only from the response of hometown buyers to local newspaper advertising.

From Paul Bumbarger comes this from Pierre Corneille, the French dramatist:

"We never enjoy perfect happiness; our most fortunate successes are mingled with sadness; some anxieties always perplex the reality of our satisfaction."

Now and then a man delivers a lecture to women only. We have always thought that lectures to women only should be delivered by their mothers.

The Colonel said: "No bride ever received as many presents as she expected."

"Men could not think of The Almost Perfect State if they did not have it in them ultimately to create The Almost Perfect State," said by Don Marquis, the greatest columnist of them all.

Remember Thomas Gray's lines:  
Full many a flower is born to blush unseen,  
And waste its sweetness on the desert air -

This is not to imply that the moon's glory has been wasted - our lore is full of allusions to it, such as moonlight, honeymoons, and even Kate Smith's "When the moon comes over the mountain," but perhaps like many other longtime favorites, a little closeup won't damage our favorite natural satellite. For those of us who dream, the cow will still jump over it, the great disk will be made of green cheese, and when the sickle tilts at a critical angle, it will spill water and the hungry land will get rain.

Lovers will continue to bask in its mellow glow, and the tireless tides on all the earth's seas will keep on rising and falling with Diana's moods. It is still the symbol of the huntsman, and even in this so-called enlightened age, many people still look for the light and dark of the moon to dictate time for planting crops.

Have at the moon, you space scientists, but you will never cool its romance.

Party Line. In Jersey City, a prospective juror answered the question, "Is there any reason, physical or otherwise, why you should not serve as a juror?" with the reply: "Yes, I belong to the Republican Club."

## WHY SUBSIDIZE THE ANARCHISTS?

We are told that we live in an age of change, and certainly the proof is all around us. Some of us are not prepared to accept the now-fashionable idea that change is good, just because it is change. But others go on assuming that we are "progressing" by tearing down every standard of right and justice and simple common sense which once were taken for granted.

Never has there been clearer proof of the direction in which we are headed than the statements made by 19 student leaders at a recent meeting under the auspices of the Center for the Study of Democratic Institutions in California.

One student said: "The revolution is coming. We're bound to destroy the university. Not pull it apart brick by brick, but bring it to a complete stall."

Still another stated: "We have the power to bring the American juggernaut to a halt. Let us paralyze the university; let us ball up the economy. One day soon, congressmen and presidents may petition us, not us them."

These and other such statements were made at a meeting sponsored by an organization which is exempt from all federal and state taxes. These students were subsidized by all of the taxpaying citizens in the United States.

It is bad enough to have these would-be destroyers among us; it is intolerable that law-abiding citizens should be paying taxes to support destructive doctrines. We must end all support, however indirect, for those who hold themselves immune from law and whose purpose is to destroy this Republic.

## BRIEFLY, HERE & THERE

Echoing the message of his book on guerrilla warfare in the U. S., author Phil Luce has prepared a report for the Senate Internal Security Subcommittee. The report, just released, declares the Harlem riot of 1964 "gave the first clear indication that Communists were deeply involved" in urban riots. His book, Road to Revolution, was reviewed in Life Lines... Young Americans for Freedom, Inc., 1221 Massachusetts Ave., n.w., Washington, D.C. 20005, is sponsoring a campaign against trade with Communist countries, selling kits for \$1 which tell how to launch local campaigns against such trade... The doctor bill portion of Medicare, under which participants voluntarily pay a small premium, had a "slight deficit" for the fiscal year ending last June. The announcement came from the Social Security Administration which said a \$1 increase in the premium instituted last December "will cover the deficit." The amount of deficit was not disclosed... May 17, the date of this issue, marks the 116th day that the U.S.S. Pueblo and her crew have been in North Korean hands...

Contempt of Court. In Troy, N. Y., Police Justice Thomas O'Connor complained that within the last month ten traffic violators had paid their fines with bad checks. In Knoxville, Tenn., Jimmy Doyle was charged with the theft of a raincoat, an overcoat, a shotgun and an \$8 check from his lawyer's office.

The small business and the individual may get more than adequate results from a very small newspaper advertisement. The consumer looking for a specific item or service is likely to scan every ad related to his needs. Then, does the large retailer find it profitable to use full-page spreads? Does it make sense to increase the volume of advertising and the size of individual ads faster than a retail business grows? Yes is the answer to both questions.

As a business grows in size, its competitive situation changes. Expansion depends on attracting new customers and operating on a smaller margin of profit. It means facing more aggressive competitors. A broader advertising program becomes necessary.

The large newspaper advertisement provides advantages similar to a more spacious building, and it is just as important to the super-retailer.

The big advertisement enhances the prestige of the retailer; it gives the impression of dominance; it competes for the attention of new and passive prospects; bigness transmits a feeling of importance and newness.

More important, the large retailer needs more space in which to sell his great variety of goods. He needs space for clear illustrations, readable type, and detailed information on special offerings.

The resultant increase in sales makes large-scale advertising cheaper for the volume retailer. It finally brings about lower prices for the consumer who shops from competitive advertising.

## Washington - Merry - Go - Round

By Drew Pearson

Drew Pearson says: "These would have been Inauguration of Charles Evers as impossible before the voting Negro mayor is historic event in rights bill." Evers told me. "I Mississippi; it couldn't have been now. I've tried to register in happened without negro voting Philadelphia (Miss.) before the rights act. White Mississippians will be passed and I personally know the runaway order they give you."

WASHINGTON-On the steps of the city hall of Fayette, Mississippi, eight miles to the north, the broad-flowing river to the Sheriff, the Sheriff Mississippi River, there takes tells you that the registration place today an event which the books are out, to come back in State of Mississippi has not 30 days. So you come back in 30 witnessed for 100 years. Charles days and then they make you Evers, a Negro, will take the oath of office as Mayor.

The ceremony and the barbecue and ball which follow will be a triumph in many different respects, also an object lesson to black militants in the north.

First it will be a triumph of love over hate; for it was only six years ago this month, July 12, 1963, that Medgar Evers, brother of the New Mayor, was shot and killed from ambush by a white racist who was twice tried but never convicted.

Charles, who carried on for his brother as head of Mississippi NAACP, could have become bitter. Instead he turned the other cheek.

"Just because a white man killed my brother," he told me, "I'm not going to take out my revenge on white men. I want to build the kind of community medgar and I dreamed of. I want to bring us together."

Second, Evers' inauguration is a triumph for the negro voting rights bill which the Nixon administration now wants to modify - and some say weaken.

Before passage of the voting rights bill in 1965, there were only 20,000 negroes registered in Mississippi. Now there are 236,000. Before passage of the voting rights bill, not one negro was elected to public office. Now 81 have been elected, including one mayor and one State Legislator, several district constables, justices of the peace, district and county supervisors, members of the boards of education, and deputy sheriffs.

I asked the Mayor whether there was much white resentment against his election.

"Only from the Klan," he replied. "They have made a few threats, but other people have been fine. Mayor R.J. Allen whom I defeated couldn't be more cooperative. So has the City Clerk, Mr. Felix Noble. They have been wonderful."

Fayette's population of 1,600 is 75 per cent black. Of

these, 100 per cents of the whites are registered and 98 per cent of the blacks. The total registration is 728, of which 699 voted at the election which elected Evers.

"You couldn't get a much higher voting participation than that," he said. "Only 29 registrants failed to vote. That's how seriously people take their voting rights."

-White-Black Cooperation- Many of these, both white and black, have been working to make today's festivities a success. The barbecue of chicken, rabbit and pig-will last from one until five in the afternoon, after which there will be a motorcade up to Natchez, that famous city of Mississippi riverboat fame.

There, the inaugural ball stars in the armory at nine p.m. Mayor Tony Byrne, white, and the Police Department, largely white, have been cooperating to make the ball a success.

A few years ago this never could have happened. But the population of Adams County in which Natchez is located is 19,000 white and 18,000 black. And with the vote now coming to Mississippi and with merchants dependent on both races for business, there's a new spirit of racial cooperation which is almost revolutionary compared with four years ago.

Five years ago, three civil rights workers were murdered and their bodies bulldozed under an earth dam outside of Philadelphia. And only four years ago Ben Chester White, a Natchez negro, was shot 17 times and killed by the Klan while minding his own business. The alleged murderers were caught and tried, but got hung juries.

"Things are changing," said the new Mayor of Fayette. "And the way to change them is not through rioting and violence but by voting. With the right to vote we can hold our heads high."

That is a lesson which both black militants who riot and Attorney General Mitchell who wants to weaken the voting rights law should note carefully.

envelope. Yes, he signed the whisper, "Don't forget your check 'Occupant.'"

The young couple had just passed a striking looking boy and girl, and she noticed his glance lingering on the stunning maiden in the low-cut dress.

"They do make a handsome pair, don't they?" she observed. "Yeah - and the rest of her isn't bad, either!"

When little Johnnie returned home from his first day at school, his mother asked what he had learned that day.

"Nothing," said Johnnie. "But the teacher asked me something I couldn't answer. She wanted to know if I favored my father or my mother."

"Well," answered his mother, "I suppose she was wondering which of us you resemble. If she asks you again, just tell her that you have your father's features but your eyes are like mine."

Little Johnnie was hardly inside the school room the next morning when he made himself heard. "I can answer your question now teacher," he shouted, "my eyes are like my mother's, but I have my father's fixtures!"

Graffiti in men's room at Los Angeles airport: "Welcome to Los Angeles - the only city in the world where you awaken in the morning to the sound of birds coughing."

## IS THAT ANY WAY?

A woman with a little boy and a little girl took both to the rest room on a plane, putting the boy in one, and going in with the girl to the other. The boy finished quickly and was followed by a man who forgot to lock the door. Coming out of the other lavatory, the mother opened the door of the men's room slightly and said in a

**PIONEERING SPIRIT**  
In 1869 men were celebrating a great event, perhaps with even more fervor than the sophisticates of today observe man's first ventures into space. That event was the completion of the nation's first transcontinental railway.

During 1969, the centennial year of this achievement, communities and states will relive the historic moments when the driving of the golden spike at Promontory, Utah, linked the Atlantic and Pacific Oceans with bands of steel.

Some of the excitement of that day 100 years ago is recaptured in a colorful, circus-type vintage poster advertising the coming of a "Great Event--Railroad from the Atlantic to the Pacific--Grand Opening... passenger trains leave Omaha on arrival of trains from the East... Travelers for pleasure, health, or business will find the trip over the Rocky Mountains healthy and pleasant." In a further effort to lure the business of venturesome travelers it adds: "Now is the time to seek your fortune in Nebraska, Wyoming, Arizona, Idaho, Nevada, or California."

## Scott County Neighborhood

### Youth Corps at Work

Teen-agers in Scott County are sweeping streets, repairing parking meters, filing county records, cleaning rodeo grounds, digging ditches, washing

windows and working with Head Start - for a starter. The Neighborhood Youth Corps program under the Office of Economic Opportunity, is a career starter for teens who need money this summer. Several hundred Southeast Missouri teens are employed from June 2 to August 8 as assistants learning the work as they go, in nonprofit organizations and public agencies. The Economic Opportunity Act provides the funds; local businessmen provide the positions.

These teens are trying to get ahead, and they are going about it by working for wages under a supervisor. Monday and Wednesday nights carpenters work without pay at all. They attend classes, called "Selective Service" in the Airport Building in Sikeston, learning recreation, arts and crafts. A lecture on drug use is scheduled for this summer.

Many of the youths, age 16 to 21, who applied through high schools, Youth Opportunity Centers and state employment

offices, are working for more than the certificate that will be given by their supervisors on August 8. They are using this program to get valuable work experience, learned responsibility and to learn the value of work which will put them in positions for better jobs later.

COURTHOUSE summer secretaries get a lesson from the record books by County Clerk, Phil Waldman, Jr. From left, Miss Ellen Towesend, Miss Doris Terry, Mr. Waldman, Miss Darlene Penrose, Miss Yvonne Felter and Miss Rita Morrett. All are Benton girls except Miss Morett, Oran.

### Mother To Search For Daughter

PHILADELPHIA (AP) — A distraught mother has begun a journey to Cuba to bring her 3-year-old daughter back to the United States.

Joanne Washington, 25, last saw her daughter Jennifer Dec. 19 when her estranged husband, Thomas, showed up at her home to take the youngster on a Christmas shopping trip. The 27-year-old chemist instead spirited the child to Cuba in a Philadelphia-to-Miami Eastern Airlines plane he hijacked.

Dear Ann: A few years ago I loaned a friend \$200. He promised to repay me with interest when he graduated from college.

A few months later he was called into the Army. I felt that so long as he was in service I would not remind him of his obligation.

When he returned he avoided me. I ran into him at the home of a mutual friend. He was embarrassed and said, "I haven't forgotten about the loan." I replied, "Good! I can use the money."

Dear Ann: Your answer to A.C., the student, was lousy. You told him to "keep plugging away." Why? Are grades that important? I know at least a dozen squares who've never missed the dean's list but they are ignorant when it comes to things that matter. You boomed, Ann. — Adam's Apple.

Dear Ad: A.C. was on the verge of flunking out. I advised him to keep plugging. This was boobing?

### Ann Landers 'Cheating' Improves Outlook

Dear Ann Landers: Please print this, but no clue as to where it came from. My letter could have been written by at least five million women. Let their husbands guess.

To The Man I Married: You have accused me of cheating on you. I've denied it because you have no proof and I figure nothing can be gained from a confession. But now I'm ready to admit that your suspicions are right. I've been seeing another man for almost a year. Here's why:

The romance went out of our marriage long ago. You decided that frills, such as kindness, consideration and decent manners, were a waste of time. You let me know my feelings didn't count. If you chose not to come home for dinner, I was expected to "catch on" by 9:00 P.M. and eat alone.

When I found lipstick on your shirts I was supposed to believe it was red marking crayon. You refused to go to church with me because you said you could worship God better on the golf course than with a bunch of hypocrites.

It's been years since we had a real conversation. You are either too busy or too tired to talk. You've made me feel like a drag, a bore, a nuisance and finally, a nothing.

Last year I met a man who made me come alive after I was sure I had died inside. He finds me interesting and attractive. His marriage is as bad as mine, but he is trapped, as I am, by children, social pressures and financial obligations.

So, my dear husband I am not leaving you, but I am cheating every chance I get and it is keeping me sane. Furthermore, I am healthier and happier than I've been in a good many years. — Your Wife

Dear Wife: You didn't ask for advice so I won't offer it. Here's your letter with no comment.

# Cards Streak At Three

By CHARLIE BAROUH

Associated Press Writer  
ST. LOUIS (AP)—The St. Louis Cardinals began the second half of the season on the right foot and now must hope they have the legs to make up the ground they lost during the first half.

The Cardinals, 12 1/2 games behind the Cubs, beat Chicago three straight over the weekend, including 4-2 and 6-3 victories in Sunday's doubleheader.

Mike Shannon keyed the nightcap victory with a three-run homer after Steve Carlton shook off a back injury to keep the Cubs in check in the first game. Shannon wasn't about to say "ready or not, here we come," but he gave a

thoughtful nod to the possibility of a comeback. It would take three victories out of every four games, Shannon figured, but at least it's a possibility.

"I'd still like to change places (with the Cubs)," Shannon added. "Don't get me wrong. Anybody that says different is an idiot. But nothing surprises you in this game."

Chicago had taken a 3-2 lead in the top of the third on three unearned runs that drove starter Mike Torrez from the mound. He was replaced by Chuck Taylor, 1-0, who stopped the Cubs on two hits the rest of the way, working on a 5-3 lead following Shannon's third-inning blast.

Cub manager Leo Durocher had little to say

was THE quarterback in this football mad town—three years at Southern Methodist and nine with the Dallas Cowboys.

He quit at the age of 31—in his prime as a National Football League quarterback. Only last year he rated as the second best quarterback in the NFL statistically.

The anti-Meredith faction took him apart at every opportunity. They claimed he "choked" in the big games. Anything that went wrong with the Cowboys was Meredith's fault, they claimed, including the narrow NFL championship losses to Green Bay.

He was the target of boos and obscenities. Meredith said he didn't pay attention to the fans, but it had to hurt. It bothered his wife, Cheryl.

The pro-Meredith faction—and there were many supporters—included Vince Lombardi, now coach at Washington, who said Meredith would be one of the "great" quarterbacks in the NFL. Coach Tom Landry of the Cowboys said that on a given day Meredith could be "hotter" than any

quarterback in the game.

"When he was on, just look out," Landry said.

But Meredith also had his cold streaks. He was inconsistent, and at times his sideline passes looked like wounded geese flopping to the ground.

Part of his inconsistency stemmed from his many injuries. He played with broken noses, sore arms, busted ribs, and torn knees. But Meredith never begged off.

But the championship losses to Green Bay and last year to Cleveland were crushing blows to Meredith's pride.

"I just don't feel like giving 100 per cent anymore," Meredith said.

And for No. 17 that would have been blasphemy. He never played the game with anything less than zest and vigor.

Even the boo birds will give him that.

Large margins separated team scores in Little League play last Friday as the Musial and American divisions took the field.

Opening Musial contest saw Collins overwhelmingly down the Bank of Sikeston 23-5. Mays took the win for Collins.

Daily Standard became Rotary's victim by a score of 14-4. Dement was credited with the win as he hurled a no-hitter.

Initial American contest saw Caproco breeze past Ziegenhorn 13-2 as it becomes a bigger threat to Police for the league title.

Final game resulted in a 13-6 loss for First National at the hands of Leslie with Rofkhar receiving the win.

Lilbourn's Scout Troop No. 50 To Lewallen

LILBOURN — Twelve scouts of Lilbourn's Scout Troop No. 50 and their Scoutmaster, Owen J. Taul, will depart Sunday, July 6, for the troop's annual sojourn to Camp Lewallen for a week of camping. The scouts will leave from the local high school building at 12:30 p.m. for the camp located near Silva, Mo. They will return on Saturday afternoon July 12. Ed Beavers will again drive the scout's bus.

Troop 50 was organized in the fall of 1940, with the Lilbourn Kiwanis Club as sponsor. Only one time since 1941 has the troop failed to be represented for a week at Camp Lewallen.

Summer camp offers the scouts a well rounded, balanced program with a well trained adult staff complimented by a junior staff of young men with previous camp experience. The scouts will have an opportunity to complete second and first class requirements and in addition the opportunity is there for the scouts to earn any of the outdoor and aquatic merit badges. Other merit badges are also available.

The Order of the Arrow callout ceremonies will be held on Thursday evening, July 10. The Lilbourn troop expects to have two candidates for this camping organization. Several parents plan to visit Camp Lewallen on Thursday afternoon and remain for the call out ceremony.

**Wouldn't it be a shame if you saved a pile of money for retirement and there was nothing to retire to?**

There's only one way to save money that helps insure your country's future at the same time. That's U.S. Savings Bonds.

With U.S. Savings Bonds, you're simply helping your country make the future a little better than the present. Also, Savings Bonds are easy and automatic. All you do is fill out a little card through a Payroll Savings Plan where you work. And then you sit back and forget 'em while the money piles up. You don't have to muster up any will-power to save every

payday, because your boss does it for you. It's something like setting up extra paydays for the future. Think about Savings Bonds for your retirement. It's not only a way to insure money for retirement, it's a way to insure retirement.

DHC Residents Hold Gettogether At Circle City

DEXTER — An annual get-together for residents of Delmo Housing Corporation villages throughout Southeast Missouri was held at Circle City Saturday, with some 50 or 60 residents attending.

The picnic - meeting was held in the Community Building in Circle City, about seven miles east of Bloomfield.

Vergie Bullington is chairman of the Women's Club at Circle City, and was in charge of the day's activities.

Women from the 10 Delmo villages were present. The housing corporation maintains villages like Circle City at Morehouse, East Prairie, Wyatt, North and South Lilbourn, North and South Wardell, Kennett and Goble.

Alex Cooper is director of Delmo, and attending the fathering in Stoddard County. Cooper's office is in Lilbourn.

Cooper explained the Delmo function after the picnic Saturday: "We are here to serve the residents of the villages by providing an education program with grants for high school students with academic promise, we provide social services and we provide an outlet for clothing through our thrift shops."

Cooper pointed out that during the past few years, some \$40,000 has gone to educational grants for needy children.

Delmo has a total of 548 homes, but they are owned by their occupants. Delmo originally owned the homes some years ago, but have sold them to occupants.

The crowd Saturday, mainly women, were treated to a chicken dinner prepared by women from Circle City, which was eaten inside the community building and on picnic tables around the building.

Throughout the community building displays showed what the residents can make - crafts from everyday household items and toys for children. In the back of the building is the Thrift Store and a loom and other craft items.

One woman summed the day up: "It's so nice we can all get together with other residents - I just wish we could do it more often."

Jane Morgan and 'Mame' to Opera

ST. LOUIS — Jane Morgan, acclaimed by audiences throughout the world as a versatile and personable star and most recently the star of the Broadway sensation, "Mame," which is now in its 4th spectacular year, will lead the Municipal Opera premiere production of "Mame," opening Monday, July 7, for a 14-night engagement. Performances will be presented nightly at 8:15 through Sunday, July 20.

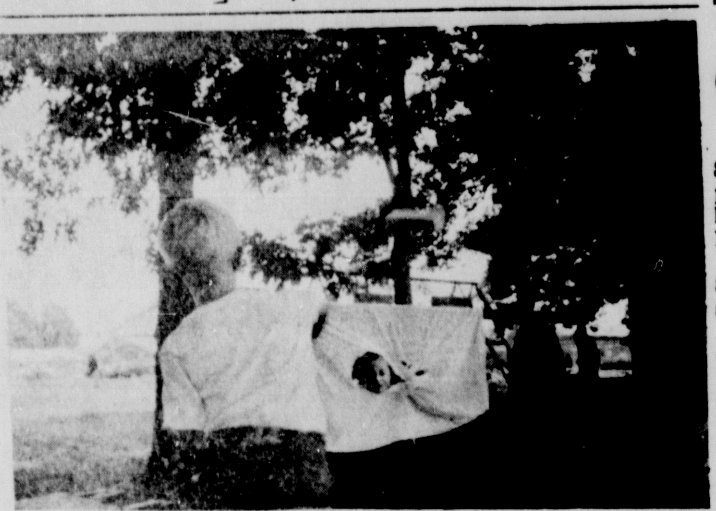

Sheila Smith, Helen Gallagher and Ed Herlihy, all members of the Broadway "Mame" company, will be starring with Miss Morgan in the respective roles of Vera, Gooch and Babcock. Of the three, Miss Gallagher is the only repeat star on the Municipal Opera stage having been here four previous times. She appeared last as Lola in the 1964 production of "Damn Yankees."

Completing the cast are Jerry Lanning his Broadway role of the older Patrick Dennis, returning for his second Municipal Opera appearance this year, Robert Kaye, Ruth Gillette, Shawn McGill, Arsenio Trinidad, Tom Batten and Louise Kirtland, all previous members of the national touring company of "Mame."

Miss Morgan began her career singing in supper clubs while still a student at Juilliard School of Music in New York. Her career spans five languages which she speaks fluently, and has taken her around the world through television, stage and recorded performances. This is her third Forest Park appearance having starred here in 1966 as La Mome Pistache in "Can Can" and as Rose in the 1967 production of "Gypsy."

The production will be directed by John Bowab, assistant produce of the original Broadway company, choreographed by Diana Baffa, a member of the original Broadway cast, and under the musical direction of Anton Coppola.

"Mame" is the story of a whimsical aunt who inherits a 10 year-old nephew, raises him through the depression and "Mames" him for life. The musical production is based on the novel "Auntie Mame" by Patrick Dennis, and the stage play of the same name by Jerome Lawrence and Robert E. Lee. Ten years after the opening of the play, Jerry Herman, musical author of "Hello Dolly" and "Milk and Honey," was added to the existing duo, and "Mame" was opened on Broadway in 1966. Some of the play's all-time hit tunes are "If He Walked Into My Life," "It's Today," "Open a New Window," "We Need a Little Music in New York." Her career

## Looking Back Luella Miller Celebrates Birthday

50 years ago  
July 7, 1919  
Mrs. Sallie Belle Miller  
entertained at her home  
Thursday at a birthday party in  
compliment to her daughter,  
Luella.

During the rain storm  
Saturday night, the lightning  
struck a barn of Dan McCoy's on  
his farm near Brown Spur and  
completely destroyed it. One  
mule belonging to Mrs. Seiffard,  
who lived on the farm was killed  
and one hundred of bushels of  
corn, a binder and other farming  
implements also belonging to her  
were lost.

The relatives of Mrs. John  
Moll surprised her with a  
birthday dinner in the form of a  
picnic Sunday on her 61st  
birthday. They met at the home  
of Edgar Moll and motored to  
Beech Grove at Morehouse and  
spent the day.

Mrs. Guy Myers went to  
Dexter Saturday to ship her  
furniture to Sikeston, where  
they will make their future  
home.

40 yrs ago  
July 7, 1929  
Eddie Mathis, Clarence  
Woodward, George Farris, Bill  
and Jack Bowman and L. M.  
Stromer drove to St. Louis  
Saturday night, returning  
Monday morning.

Emory Rose, Harold  
Ansell and Miss Virginia Hudson  
have been guests since Sunday at  
a house party of friends at the  
Arcade Hotel at West Plains. The  
Sikeston group returned  
Tuesday.

M.E. Montgomery and family  
left by auto Tuesday last for Las  
Cruces, N.M., to visit relatives  
and enjoy a vacation.

Elmos Taylor, known to  
Sikeston housekeepers and  
merchants for the past 16 years  
as driver for Schorle Brothers  
Bakery, announces in this issue  
of The Standard as candidate for  
the position of collector of  
Sikeston.

30 years ago  
July 7, 1939  
A surprise birthday dinner  
was given Sunday at the home of  
Mr. and Mrs. Van James of  
Libbourn, in honor of Mrs.  
Walter Carr and Mrs. J.R. James,  
sr.

The first cotton bloom  
reported for the season was  
brought Monday to The  
Standard office by C.C. Holder,  
who farms three miles south  
of Miner, Switch on E.C.  
Matthews Estate land.

Harry C. Blanton celebrated  
his 48th birthday at his mother's  
table on July 5. His first advent  
into this world his parents were  
mighty happy and down his  
pathway to the present day have  
been proud of him and his  
accomplishments. May good  
health be his portion for many  
more birthdays.

C.L. Blanton, jr., of The  
Standard force, is confined to  
his home with a case of mumps  
much to his inconvenience. He  
wishes to thank friends and well  
wishes who sent pickles and the  
green apples for his dessert.

20 years ago  
July 7, 1949  
Mr. and Mrs. Harold  
Billington of Sikeston  
announced today they have  
purchased the Phillips 66 Cafe  
and Service Station opposite the  
Highway Department building on  
Highway 61 north.

Paul Northington, son of Mr.  
and Mrs. Bill Northington, was  
treated in the office of Dr.  
Chester J. Mellies Saturday for  
burns on the hand received from  
a firecracker accident.

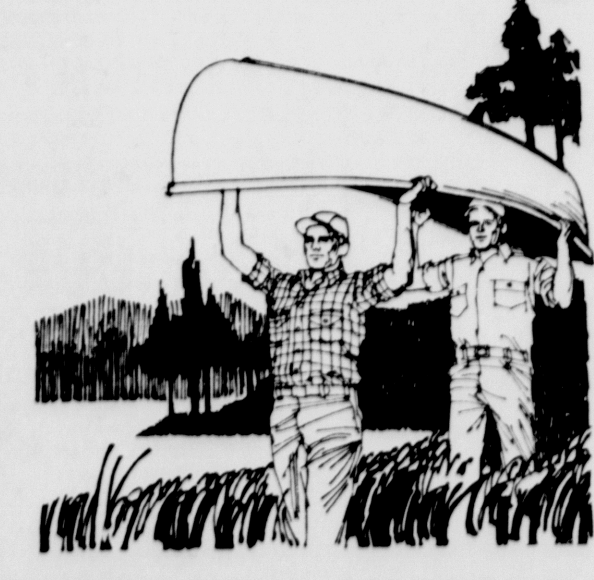

Installation work on modern  
blinker warning lights at the  
Frisco tracks and Highway 60 by  
a railroad crew is expected to be  
completed next week, according  
to highway department officials.  
The lights are being paid from a  
special State Highway  
Department fund.

## Keep It Beautiful

If America hired people for the job, it would take the  
largest sort of army to keep our country free of litter.  
But there's no need to hire anyone. It's a job we can  
do for ourselves. All of us. Every family that spreads a  
picnic lunch. Every boatman who cruises the lakes and  
waterways. Every motorist who uses our roads and  
highways.

It is the pleasure of the U. S. Brewers Association  
each year to give its fullest support to the Keep America  
Beautiful Campaign. Remember: Every Litter Bit Hurts.  
This is our land. Let's treat it right.

## Soil Sample Real Tool for Farmer

PORTAGEVILLE — A  
properly taken soil sample is one  
of the best tools you can use to  
put your soil fertility program on  
a sound basis. But a soil test can  
only tell you the availability of  
nutrients in the soil and the  
amount that should be applied  
for top yields.

The high cost of  
production and low prices  
demands that every acre  
produces a top yield. We know  
that many acres do not produce  
well even though a soil test was  
made. Maybe the plant isn't  
getting all the nutrients applied  
for causes such as insects, cold  
soil, herbicide injury, etc.

Until recently there was no  
quick routine method of testing  
plants for nutrient content.  
Nutrients in a plant can now be  
measured by plant tissue  
analysis. This is another tool to  
help farmers avoid nutrient  
element deficiencies and increase  
yields.

Until this growing season, a  
soil test was the only practical  
means for Southeast Missouri  
farmers to check the ability of  
their soil to supply plant food.  
With this new technique, plant  
tissue analysis is available for major  
crops grown in the Delta. Plant  
pathway to the present day have  
been proud of him and his  
accomplishments. May good  
health be his portion for many  
more birthdays.

The three main objectives for  
running a plant tissue analysis  
are:  
(1) To determine how  
effectively fertilizer treatment  
and soil supply are meeting the  
plant's needs for nutrients.

Paul Trotter, former manager  
of the state employment and  
security office here, has been  
appointed assistant farm  
placement supervisor for the  
state.

## POST OFFICE AWARDS If You Were the Judge CONTRACT FOR BERTRAND POST OFFICE Credit Card Causes Trouble

WASHINGTON, D.C. - 10th  
District Congressman, Bill D.  
Burlison of Cape Girardeau,  
today announced that he has  
been informed by the Post  
Office Department that a  
contract has been awarded for  
the construction of a new Post  
Office facility at Bertrand,  
Missouri. The successful bidders  
were Mr. and Mrs. Hoarce  
McKinley of Bertrand.

The new Post Office will be  
located on the northeast corner  
of Olive and Cedar streets. The  
interior will contain 1,056  
square feet of floor space, plus  
20,160 square feet of exterior  
parking space.

The Post Office Department  
will lease the new building for  
five years with 3 five-year  
options. The estimated cost of  
construction is \$18,020. The  
rent will be \$1,800 annually.  
The one-story air conditioned  
building is scheduled for  
completion in November of this  
year.

By Jack Strauss, L.L.B.  
At six bits a shot, Tightwad Teddy remained a confirmed  
teetotaler. But then he obtained a credit card and his whole  
outlook changed. Not required to reach into his pocket for hard  
cash, he became a bar-fly on the strength of his signature.  
Taking a dim view of her husband's new character, Teddy's  
wife wrote to the credit card company and, explaining that her  
husband had become a guzzler, demanded that his credit card be  
cancelled. The company, however, paid no attention to the  
demand and Teddy became an alcoholic and died from too much  
booze.

Provoked that the card wasn't revoked, Teddy's widow sued  
the credit card company for the death of her husband.

"The only reason that Teddy became an alcoholic," she  
complained in court, "was because he could charge his drinks. Had  
his card been cancelled, as I demanded, he'd still be here sipping  
tea with me."

"How a customer uses his credit card," answered an official of  
the company, "isn't our problem. While we try to save our  
customers from inconvenience with others, we're not required to  
save our customers from themselves."

IF YOU WERE THE JUDGE, would you hold the credit card  
company liable for enabling Teddy to become an alcoholic?

This is how the judge ruled: NO! The judge held that a credit  
card company cannot be blamed for how a customer uses his  
credit. In this case, concluded the judge, the company had done  
nothing to cause Teddy to become an alcoholic.

be mailed. Normally this will  
require 24 to 48 hours. After the  
laboratory receives the sample it  
will be oven dried, ground and  
analyzed. Results should be  
returned to sender in 7 to 10  
days.

## Suggested plant sampling procedure for plant analysis:

Crop, stage of growth, plant  
part, number of plants to  
sample:

Corn, prior to tasseling,  
whole plant or fully developed  
leaf below whorl ear leaf, 15-25.  
Sorghum, 2nd leaf from top  
just as head is fully emerged,  
15-25.

Soybeans, 1st bloom, select  
1st fully developed trifoliate leaf  
below top of plant. Remove and  
discard stems. Enclose leaves  
only, 35-50.

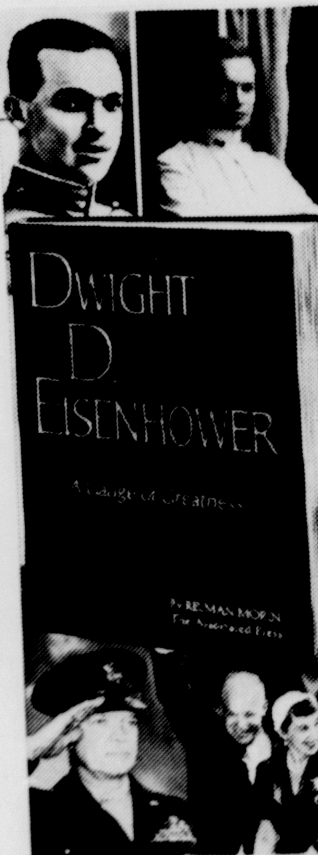

Cotton, when bolls start to  
set most recently matured  
leaves, 35-50.

Put plant parts in clean kraft  
paper sack. Leave them loose to  
allow for air drying. Do not wash  
or tie the leaves into a bundle or  
put in plastic sacks. Heating and  
molding may occur. Do not  
close the bag after the sample  
has been collected. Take sample  
immediately to your University  
Extension Center, Soil Testing  
Laboratory, Portageville, or air  
dry sample and deliver or mail it  
to the laboratory at Portageville.  
Send check with sample.

When drying, select a room or  
shed as free of dust as possible.  
Avoid reas where chemicals are  
stored. Place open bag on clean  
wooden surface. When tissue is  
as dry as well cured hay, it can

## What Judgment Will History Pass on General Eisenhower?

Here is what Reiman Morin, two-time Pulitzer prize winner, says in the first full length, complete biography of the man:

"Eisenhower goes into history  
as one of the most popular of  
Presidents, in whom Americans  
recognized an earnest, kindly,  
sincere man of unquestionable  
integrity.

"As a politician he was almost  
unique in that he was wholly  
without the 'jugal instinct,' the  
urge to destroy an enemy; he  
was more prone to turn the  
other cheek.

"He also was one of the most  
selfless Presidents, less con-  
cerned with his popularity and  
the expedient actions that might  
enhance it than what he consid-  
ered the well being of the United  
States and her allies.

"When Eisenhower came to  
office, bitterness and rancor di-  
vided the nation; when he left, an  
era of good feeling had replaced  
the sense of divisiveness. The  
credits far outweighed the  
debts in his presidency."

Morin's judgment is based on long professional and personal  
acquaintance with the general, and on a year's study  
and research, which included long conversations with him  
and with many of his associates and, best of all, access to  
his private letter files.

The result is a big book (8 1/2 by 11 inches, 264 pages,  
more than 85 pictures in black and white and color, and a  
140,000 word text.)

## Radiated Food Project Shelved

WASHINGTON (AP) — The once-heralded use of radiation to extend the shelf life of foods has been shelved by the Agriculture Department.

An order to meat packers last week followed an earlier determination by the Food and Drug Administration that gamma radiation needed more study as a preservative process for meat products such as canned bacon.

Bacon was the last product authorized for radiation testing. A decade ago the Army, with cooperation of the Atomic

Energy Commission, launched an ambitious food irradiation project.

Sample quantities of a variety of foods were treated and test eaten. High military officials pronounced the radiated rations tasty, but lower ranking military people were less enthusiastic.

Irradiated food was never produced in commercial quantities. Now the government says more data on possible health hazards will be required before it will approve production for general consumption.

## Story Hour

### Tomorrow

"Fluffy and the Fly-Away Fly" is the book Mrs. Jeanne Weichand will read to children at the Public Library's Story Hour tomorrow.

Also, she will show two films, "The Monkey Who Would Be King" and "King Midas and the Golden Touch."

The Children's Story Hour will continue through July 24.

### Four Homes Burned

### In New Madrid Fire

NEW MADRID — Four houses were destroyed and one was severely damaged Friday in a fire of undetermined origin on Brush Prairie road. Twenty-nine persons were left homeless.

The fire began at 1:15 p.m. at the home of Caroline Fisher, who was not at home. The fire spread from the Fisher home to the homes of Gertrude Kellams, Johnnie Mae Holmes, Bertha Burgess and Willie Bell Brown. Willie Mae Davis owned the houses.

At 6:15 p.m. Saturday, the home of Wallace Byrd, 302 Tennessee, St., was damaged by fire.

## Youths' Disabilities Receive Attention In Dexter's Child Developmental Center

BY CAROL WERNECK  
DEXTER—Children who participate in programs at the Child Developmental Center are mainly youngsters of average or superior intelligence who have disabilities which cause them to fail in conventional classrooms.

Some do outgrow difficulties in speech, hearing or motor skills, but many more become learning casualties when they could lead normal lives, with the help of developmental training.

A child with developmental disabilities needs to have attention early. Often an inability to keep up with other children in the classroom will frustrate a child.

The center is on One Mile Road in the lower level of the Jibben Medical Arts building. The center serves a 12-county area including 58 school districts. Counties served by the center are Dunklin, Pemiscot, New Madrid, Stoddard, Butler, Ripley, Carter, Wayne, Mississippi, Scott, Cape Girardeau and Ripley.

The center uses team teaching approaches in speech pathology, auditory training, reading specialization and physical therapy.

It measures the intellectual, social and emotional development of children, and interprets the results through vocational guidance programs, individual inventory and guidance and assistance in general planning of guidance programs.

Speech and hearing evaluation are offered at the center and at area schools.

The center has three mobile units, which will travel to schools in the 12-county area served on request of a school administrator to help children or to assist personnel in the school in setting up programs for developmental guidance.

Upon request, personnel from the center will go to a school

district to explain and discuss the services available and present a handbook to describe the services in depth.

There is a mobile unit equipped for speech and hearing, one equipped for clinical reading and one for guidance and counseling.

The mobile units are helpful, Mrs. Mary Jo Richmond, center director, says, because "we can go to a school district and get right to work. We don't have to spend half of the morning getting set up in a room at the school."

The center is equipped to diagnose reading disabilities. Personnel at the center will work with individuals or assist remedial reading teachers in general planning and evaluation.

A physical therapist is on hand at the center to work with children or to help physical education or special education teachers set up programs.

The staff at the center includes Mrs. Richmond; Miss Helen Sue Ayres, speech pathologist; Mrs. Laurie Coffman, reading specialist; Cliff Manlove, counselor; Mrs. Joyce Yates, speech pathologist; Mrs. Dorothy Estes, reading specialist; Mrs. Julie Minton, physical therapist; Jack Smarr, media technician and Mrs. Marilyn Tuely, secretary.

Miss Vicki Gisi is an aide employed for the summer and Miss Robin Walters of Sikeston will be employed as a speech pathologist in August.

A consulting team from the Malcolm Bliss Mental Health Center in St. Louis assists at the center periodically.

Members of this team are, Dr. Barbara Herjanic, child psychiatrist; Miss Bernice Collins, psychiatric social worker; Mrs. Ruth Zimmerman, psychiatric nurse; Mrs. Gloria Gilbert, education consultant for emotionally disturbed and Miss Dorothy Ogilvie, social worker.

DEVELOPMENT OF COORDINATION is one goal at the Child Developmental Center in Dexter. Practicing on the balance beam area on the left, Steven Moore and Warren Ragsdale. On the right beam are Steven Botsch, Lanny Maddox and Lynn Porter.

MARK NEWMAN listens to sounds over a Hoffman Reader. Mrs. Dorothy Estes, reading specialist, assists him. This is part of the reading program at the Child Developmental Center in Dexter.

## Hoover Points out Red Chinese Threat

### One Killed Over Holiday Weekend

James Lawrence Poindexter, 47, Chicago, was dead on arrival at Pemiscot County Memorial Hospital, Hayti, as a result of a highway accident at 5:55 p.m. Sunday on Hwy. 61, three miles north of Hayti.

Poindexter, driving a 1966 Oldsmobile, was in the left lane when he lost control of his vehicle. The rear of his car was hit by a 1967 Buick, driven by Alex Johnson, 58, Jackson, Miss. Johnson was not injured.

The Poindexter car ran into a ditch and turned on its top, while the Johnson car stopped on the highway shoulder.

Poindexter was taken to the Osburn Funeral Home in Hayti. In a two-car collision at 11:40 a.m., Sunday on Hwy. 61, three miles south of Perryville, six were hospitalized and three were treated and released from a hospital.

Treated at Perry County Memorial Hospital and transferred to a St. Louis hospital were the Loren L. Steele family, Belleville, Ill. Steele, 28, is in critical condition with head, face and internal injuries. Mrs. Steele, 27, had facial cuts and bruises. Their children hospitalized were, Loren, 10, nose injury; Dana, 9, head injury; Marilyn, 4, possible head injury; and Kevin, 7, forehead cuts.

WASHINGTON (AP) — Communist China has singled out the United States as its No. 1 enemy and is working to tap needed scientific information here by any means, FBI Director J. Edgar Hoover says.

"The potent threat to our national security posed by Red China still exists," is the way Hoover phrased it. "In fact, the blatant, belligerent and illogical statements made by Red China's spokesmen during the past year leave no doubt that the United States is Communist China's No. 1 enemy."

Hoover's warning was delivered behind closed doors last April to a House Appropriations subcommittee. His testimony was released today.

"This bitterness towards the United States and other Western countries—even the Soviet Union—is a factor in Red China's ambition to equal other major powers economically, militarily and, especially, in scientific endeavors," Hoover said.

This goal, Hoover said, has resulted in Chinese Communist intelligence activities here—overt as well as covert—to get needed material, particularly in the scientific field.

The FBI chief said one clandestine effort was thwarted in 1967 when an effort was made to send electronic equipment to Hong Kong by way of Canada.

Hoover said informants have made "deep penetrations in intelligence operations" in this country by Communist countries, particularly the Soviet Union, Cuba and Red China.

But, without specifying which countries, Hoover said these Communist intelligence services also try to penetrate his own FBI, the CIA, State and

Defense Departments. He didn't mention the degree of success.

Turning to Communist China, Hoover said: "Red China has been flooding the country with its propaganda and there are over 300,000 Chinese in the United States, some of whom could be susceptible to recruitment either through ethnic ties or hostage situations because of relatives in Communist China."

In addition, up to 20,000 Chinese immigrants can come here each year "and this provides a means to send illegal agents into our nation." He said there are active Chinese Communist sympathizers in the Western Hemisphere in a position to aid in operations against this country.

A growing problem concerns the 40,000 Hong Kong based Chinese seamen, many actually living on the China mainland. "We are aware of situations where they have served as couriers in intelligence operations."

On any given day, Hoover said, three-fourths of these crewmen are on ships around the world and about 27,000 are members of the Chinese Communist-dominated Hong Kong Seamen's Union.

"Although it is not necessary for a seaman to desert ship to perform an intelligence assignment," Hoover said, "it is noted that there were over 700 desertions by Chinese crewmen in the United States in fiscal 1967, and this accounted for more than 80 per cent of the total desertions by Chinese crewmen throughout the world during that year."

## Twelve Emergencies

Nine of twelve persons treated at Missouri Delta Community hospital over Saturday and Sunday, were for dog bites and leg injuries.

Treated Saturday were Elsie M. Walters, Portageville, barbecue pit exploded, burning right side of body; Joseph W. Higgs, Indianapolis, Ind., caught toe on spring of car; Kendra L. Hawkins, struck head on table while running; Allen McBride, Charleston, treated for dog bite; Rusty Ramsey, El Paso, Tex., cut left foot on object in water; Robert Heil, Anaheim, Calif., bitten by dog.

Treated Sunday were Ronnie Williams, Charleston, injured toe while riding bicycle; Larry Robinson, cut foot on glass; Curtis Baker, Hollister, cut toe on glass; Tony Brock, Lilbourn, bitten by insect; Stanley Sorrells, injured right hand playing ball; Raymond Jones, New Madrid, injured right knee in fall on concrete.

## City Council Meets Tonight

Sikeston's City Council will meet tonight in a regular session for July.

City Manager W. Raymont Miller said this morning action of the council is expected to deal with zoning, bids on widening streets, application for liquor license, street paving and an ordinance calling for the approval of a sub-division.

The meeting begins at 7:30 p.m. at the city administration building, 316 South Kingshighway.

## Weather

## Nursing Home Petition Being Circulated

Abram Hirschowitz, Oran businessman, is circulating a petition for a nursing home for the elderly in Scott County.

Funds for the home will come from several government sources, if passed by the voters. Scott County will be obligated to pay only 20 per cent of the proposed \$500,000 cost.

Several Scott County citizens have jointly offered 50 acres of land for the home, if the issue passes.

Local tax-payers were told by state officials in Benton, last February, that the homes are usually self-sustaining with 60% occupancy.

The home will house 150 patients and will provide 24 hour nursing care for residents. Those eligible for the home's services include citizens on medicare, Medicaid, and welfare. A special fund will be available for those who can't afford to pay.

Hirschowitz stated this morning he lacks only 150 signatures of the 1020 needed. He hopes to soon turn the petition in to the county court in Benton for approval.

"MISS MISSOURI BOOTHEEL" — Miss Susan Hunter Shelby, daughter of Mr. and Mrs. Travis Shelby, East Prairie, Mo., who won the title in the Jaycee Independence Day celebration at Hayti. There were 25 girls in the contest.

## \$171,702.00 In Welfare Payments

The Scott County Welfare Office reports 165 child welfare services, 52 protective services, 50 foster home cases and 63 services to adoptive and unmarried mothers and supplementary services for June. Mrs. Cathleen Gipson, county welfare director, lists 2218 total welfare cases with total aid \$171,702.00. The caseload is divided into categories follows:

1334 cases of old age assistance, \$92,073.00 amount of payment, \$69.02 payment per case.

457 cases with 1397 children if aid to dependent children, \$49,562.00 amount of payment, \$108.45 payment per adult, \$35.41 payment per child.

169 cases involving 184 persons for general relief, \$10,711.00 amount of payment, \$63.38 payment per case, \$58.11 payment per person.

224 cases of permanent and total disability, \$16,426.00 amount of payment, \$73.33 payment per case.

33 cases of aid to the blind, \$2,845.00 amount of payment, \$85.00 payment per case.

One case of blind pension at \$85.00 was reported.

## Patmor Honored With Life Membership

James T. Patmor, 1216 Sikes, has been named awarded a life-time membership with the Southeast Chapter of Missouri Society of Certified Public Accountants.

The announcement was made Saturday by Thomas J. Cox, Poplar Bluff, president of the organization.

Patmor was cited for being instrumental in the passage of legislation that has benefited the individual practitioner and small firm men. Patmor was the first accountant in Southeast Missouri to pass the CPA examination.

"His dedication to the profession and his work to further its goals has been an inspiration to others in the profession," Cox said.

## Doing Well

O. D. Clayton, manager of the Sikeston Chamber of Commerce, has returned from a Memphis, Tenn., hospital and is recuperating from back surgery. Clayton said last week he expects to return to his job within 10 days.

## Shaw Says I-55 Bids Open Soon

The highway department hopes to have land purchases made so bidding can open in August for the construction of Interstate 55 between Fruitland and the Perry County line, Wm. H. Shaw, executive engineer, District 10 Highway Department, said.

Work on Interstate 55 in Scott and Cape Girardeau Counties is 50 per cent complete. Work on center stripes should begin this week.

Old route 61 in Pemiscot County is being resurfaced and is receiving new shoulders. This route will eventually be used as the southbound lane of I-55.

This month, the highway department will accept bids for the installation of basic lighting at the Miner interchange and at the Scott County interchange.

Bids were received for this a few months ago, but they were excessive, so they were rejected.

Work is progressing slowly on the Mississippi River Bridge in Cape Girardeau. Painting is still in progress and is 55 per cent complete.

## Holiday Traffic Kills 591

By THE ASSOCIATED PRESS

Traffic accidents killed 584 persons over the holiday weekend, more than on any other three-day Fourth of July holiday period.

The death toll surpassed the old three-day record of 576, set in 1966. It fell far short of the all-time Fourth of July record of 732, set in 1967 when the holiday was four days long.

An Associated Press survey taken two weeks ago on a nonholiday weekend counted 435 traffic fatalities.

Last weekend's count, which extended from 6 p.m. Thursday to midnight Sunday, confirmed the National Safety Council's prediction that between 550 and 650 would die on the highways.

## Soviet Warships to Visit Cuba

MOSCOW (AP) — A Soviet naval squadron will visit Cuba July 20-27 at the invitation of Havana, the official Soviet news agency Tass announced today. Western military experts said it would be the closest visit to the United States ever by Soviet warships.

The brief Tass announcement said the squadron would consist of a rocket-carrying cruiser, two submarines, a tender and a tanker. Tass said the ships now are making a training cruise in the central Atlantic.

The appearance of Soviet warships in Cuba, 90 miles from the United States, seemed intended to back up the Soviet Union's claim that it is now a world naval power. Western observers also speculated it might be intended as a form of retaliation for President Nixon's planned visit to Romania in August.

ONE OF THE THREE MOBILE UNITS owned by Dexter's Child Developmental Center is a speech and hearing facility. There is another unit for guidance and counseling and one for clinical reading. Women at the center drive these units to area schools on request of a school administrator.

## Busch Sends Buffaloes to Old Friend LBJ

ST. LOUIS (AP) — An old friend of Lyndon Baines Johnson is sending the former president a gift.

August A. Busch, Jr., president of Anheuser-Busch, Inc., ordered four Bisons to be shipped today to Johnson State Park adjoining the LBJ ranch near Johnson City, Tex.

The shaggy two-year-old buffaloes will be added to a small herd already at home on

several hundred acres of grazing land across the Perdenales River from the LBJ ranch.

The park was opened recently as a memorial to the 36th president, whose birthplace is nearby.

A spokesman for Busch said that he and the president "have been swapping horses and cattle for years."

Busch purchased the buffalo recently at Piedmont, Mo.

PRESENTATION QUEENS AT SATURDAY'S HORSE SHOW were, from the left, Miss Susie Newton, three-year old walking horses; Miss Debbie Bridger, walking horse; Miss Lee Ann Reagan, five-gaited; Miss Barbara Barnes, juvenile walking horses; Miss Nancy Dillinger, costume pony and Miss Susie Dillinger, amateur walking horses.

POOR CHARLIE SAYS!  
SUMMER

The solstice arrived on schedule and the weeks of summer lie ahead. "Good old summer time," countrymen say. This is the period when crops push toward maturity, when apples resemble green golf balls on the boughs, and clusters of jade jewels shine among tomato leaves.

Time seems to fly faster than man-made machines. Only a few weeks ago earth was warning after a winter; only a few weeks ago ribbons of dark soil curled away from ploughshares. It seems but yesterday when a man was dropping his potato seed for the crops of Early Rose and Irish Cobblers.

Now it is summer. Dawns are moist and cobwebs make patterns on the lawns. Hedgerows and woodlands are filled with the flutterings of birds. Shorn meadows and upland fields lie brown and listless in the heat of midday.

Grasshoppers take off on circling flights and the staccato monotone of beating wings carries far in the brooding, humid air. Crickets fiddle in the aster bed beneath kitchen windows and Monarch butterflies circle above patches of milkweed.

One can feel the power of maturing life in the fields and gardens. It isn't the pulsing urgency of spring; it is steady, determined forward march. The rhythms that govern our flowering world were set in motion long ago. Summer is one of the rhythms.

A man cannot define a season of life. All he can do is live it and extract the deeper meanings as best he can.

Financial Statement. In Abilene, Texas, after four burglaries at his St. Paul Methodist Church, Pastor Earl Hamlet announced through the columns of the Reporter News: "We do not keep our collection money in the church safe... Pickings (there) are either very slim or non-existent and never worth the trouble, regardless."

State Police report: 1968 deaths reach an all time high (almost a national report for all states)

The consumer has little knowledge of the expense and effort involved in the introduction of a new product which he casually accepts as a mark of progress.

Executives of Pilot Products Industries, Inc. recently described the immense amount of planning and cost which went into the promotion of a new cooking oil.

The company, which specializes in the introduction of new products, first had to determine if the public was fully satisfied with existing products -- and why, or why not. This step called for a costly survey of representative housewives.

Next, proof had to be offered to the potential manufacturer that a product it had developed would fill a need which was not being filled. This step consisted of actually bottling the new product and distributing it to a sample of housewives for testing.

After the oil had been used under various cooking conditions, reactions from the housewives were obtained through intensive interviewing. The interviews provided information for possible modification of the product. They suggested approaches to advertising and inspired a name which was appealing and in keeping with the outstanding features of the product.

After the design of an appropriate package the long process from manufacture to final sales began. This involved advertising in trade and national media to establish a general demand for the product. The work of personal salesman placed the product with wholesalers and retailers.

But the final test came only from the response of hometown buyers to local newspaper advertising.

From Paul Bumbarger comes this from Pierre Corneille, the French dramatist:

"We never enjoy perfect happiness; our most fortunate successes are mingled with sadness; some anxieties always perplex the reality of our satisfaction."

Now and then a man delivers a lecture to women only. We have always thought that lectures to women only should be delivered by their mothers.

The Colonel said: "No bride ever received as many presents as she expected."

"Men could not think of The Almost Perfect State if they did not have it in them ultimately to create The Almost Perfect State," said by Don Marquis, the greatest columnist of them all.

Remember Thomas Gray's lines:

Full many a flower is born to blush unseen,  
And waste its sweetness on the desert air -

This is not to imply that the moon's glory has been wasted - our lore is full of allusions to it, such as moonlight, honeymoons, and even Kate Smith's "When the moon comes over the mountain," but perhaps like many other longtime favorites, a little closeup won't damage our favorite natural satellite. For those of us who dream, the cow will still jump over it, the great disk will be made of green cheese, and when the sickle tilts at a critical angle, it will spill water and the hungry land will get rain.

Lovers will continue to bask in its mellow glow, and the tireless tides on all the earth's seas will keep on rising and falling with Diana's moods. It is still the symbol of the huntsmen, and even in this so-called enlightened age, many people still look for the light and dark of the moon to dictate time for planting crops.

Have at the moon, you space scientists, but you will never cool its romance.

Party Line. In Jersey City, a prospective juror answered the question, "Is there any reason, physical or otherwise, why you should not serve as a juror?" with the reply: "Yes, I belong to the Republican Club."

WHY SUBSIDIZE THE ANARCHISTS?

We are told that we live in an age of change, and certainly the proof is all around us. Some of us are not prepared to accept the now-fashionable idea that change is good, just because it is change. But others go on assuming that we are "progressing" by tearing down every standard of right and justice and simple common sense which once were taken for granted.

Never has there been clearer proof of the direction in which we are headed than the statements made by 19 student leaders at a recent meeting under the auspices of the Center for the Study of Democratic Institutions in California.

One student said: "The revolution is coming. We're bound to destroy the university. Not pull it apart brick by brick, but bring it to a complete stall."

Still another stated: "We have the power to bring the American juggernaut to a halt. Let us paralyze the university; let us ball up the economy. One day soon, congressmen and presidents may petition us, not us them."

These and other such statements were made at a meeting sponsored by an organization which is exempt from all federal and state taxes. These students were subsidized by all of the taxpaying citizens in the United States.

It is bad enough to have these would-be destroyers among us; it is intolerable that law-abiding citizens should be paying taxes to support destructive doctrines. We must end all support, however indirect, for those who hold themselves immune from law and whose purpose is to destroy this Republic.

BRIEFLY, HERE & THERE

Echoing the message of his book on guerrilla warfare in the U. S., author Phil Luce has prepared a report for the Senate Internal Security Subcommittee. The report, just released, declares the Harlem riot of 1964 "gave the first clear indication that Communists were deeply involved" in urban riots. His book, Road to Revolution, was reviewed in Life Lines... Young Americans for Freedom, Inc., 1221 Massachusetts Ave., n.w., Washington, D.C. 20005, is sponsoring a campaign against trade with Communist countries, selling kits for \$1 which tell how to launch local campaigns against such trade... The doctor bill portion of Medicare, under which participants voluntarily pay a small premium, had a "slight deficit" for the fiscal year ending last June. The announcement came from the Social Security Administration which said a \$1 increase in the premium instituted last December "will cover the deficit." The amount of deficit was not disclosed... May 17, the date of this issue, marks the 116th day that the U.S.S. Pueblo and her crew have been in North Korean hands...

Contempt of Court. In Troy, N. Y., Police Justice Thomas O'Connor complained that within the last month ten traffic violators had paid their fines with bad checks. In Knoxville, Tenn., Jimmy Doyle was charged with the theft of a raincoat, an overcoat, a shotgun and an \$8 check from his lawyer's office.

The small business and the individual may get more than adequate results from a very small newspaper advertisement. The consumer looking for a specific item or service is likely to scan every ad related to his needs.

Then, does the large retailer find it profitable to use full-page spreads? Does it make sense to increase the volume of advertising and the size of individual ads faster than a retail business grows? Yes is the answer to both questions.

As a business grows in size, its competitive situation changes. Expansion depends on attracting new customers and operating on a smaller margin of profit. It means facing more aggressive competitors. A broader advertising program becomes necessary.

The large newspaper advertisement provides advantages similar to a more spacious building, and it is just as important to the super-retailer.

The big advertisement enhances the prestige of the retailer; it gives the impression of dominance; it competes for the attention of new and passive prospects; bigness transmits a feeling of importance and newswiness.

More important, the large retailer needs more space in which to sell his great variety of goods. He needs space for clear illustrations, readable type, and detailed information on special offerings.

The resultant increase in sales makes large-scale advertising cheaper for the volume retailer. It finally brings about lower prices for the consumer who shops from competitive advertising.

LOW CALORIE PLATE  
The late Harry Reichenback, press agent and master of ballyhoo, once had lunch in a small cafe that was failing in spite of its exceptional cuisine. So Harry told the owner to put a large bowl of water in the front window and over the bowl Harry placed this sign: "The only Living Brazilian invisible fish!" People stopped and looked long and hard at that bowl. Some swore they could see it or at least saw it make the water ripple. The ripples were caused by a small electric fan which Harry had hidden out of sight. Many onlookers would enter the restaurant to get a closer look at the fish and some would stay for dinner. Business boomed until the proprietor put "Brazilian Invisible Fish" on the menu at \$4.75 a serving.

Then there was the computer that refused to work until it was promised at least two circuit breaks a day.

The other day I asked a 70-year-old hillbilly neighbor of mine why he got married for the seventh time. "Well, I'll tell you," he said, "for the little bit they eat I wouldn't be without one."

"WHO GETS THE TRADE"  
We wouldn't try to have you think this little jingle is original or even very new, but it carries a lot of sense just the same. Here it is:

A fellow got a letter appealing for funds that was addressed to "Occupant." He sat himself down, wrote a check for \$10,000, and mailed it back in the enclosed postage - paid

Notice on bulletin board at University of Western Ontario: "Wanted - a bicycle just for riding around campus. Must be reasonably priced. Sex is immaterial."

Why do you lower your eyes when I say "I love you?" the young man asked the attractive girl in the nudist camp. "To see if it's true," she replied.

WASHINGTON--On the steps of the city hall of Fayette, population 1,600, eight miles from the broad-flowing Mississippi River, there takes place today an event which the State of Mississippi has not 30 days and then they make you recite the constitution from memory.

The ceremony and the barbecue and ball which follow will be a triumph in many different respects, also an object lesson to black militants in the north.

First it will be a triumph of love over hate; for it was only six years ago this month, July 12, 1963, that Medgar Evers, brother of the New mayor, was shot and killed from ambush by a white racist who was twice tried but never convicted.

Charles, who carried on for his brother as head of Mississippi's NAACP, could have become bitter. Instead he turned the other cheek.

"Just because a white man killed my brother," he told me, "I'm not going to take out my revenge on white men. I want to build the kind of community medgar and I dreamed of. I want to bring us together."

Second, Evers' inauguration is a triumph for the negro voting rights bill which the Nixon administration now wants to modify - and some say weaken.

Before passage of the voting rights bill in 1965, there were only 20,000 negroes registered in Mississippi. Now there are 236,000. Before passage of the voting rights bill, not one negro was elected to public office. Now 81 have been elected, including one mayor and one State Legislator, several district constables, justices of the peace, district and county supervisors, members of the boards of education, and deputy sheriffs.

The Voting Runaround--

6,100 is 75 per cent black. Of

envelope. Yes, he signed the check "Occupant."  
The young couple had just passed a striking looking boy and girl and she noticed his glance lingering on the stunning maiden in the low-cut dress.  
"They do make a handsome pair, don't they?" she observed.  
"Yeah - and the rest of her isn't bad, either!"

H.L. Hunt Says

PIONEERING SPIRIT  
In 1869 men were celebrating a great event, perhaps with even more fervor than the sophisticates of today observe man's first ventures into space. That event was the completion of the nation's first transcontinental railway.

During 1969, the centennial year of this achievement, communities and states will relive the historic moments when the driving of the golden spike at Promontory, Utah, linked the Atlantic and Pacific Oceans with bands of steel.

Some of the excitement of that day 100 years ago is recaptured in a colorful, circus-type vintage poster advertising the coming of a "Great Event-Railroad from the Atlantic to the Pacific-Grand Opening... passenger trains leave Omaha on arrival of trains from the East... Travelers for pleasure, health, or business will find the trip over the Rocky Mountains healthy and pleasant." In a further effort to lure the business of venturesome travelers it adds: "Now is the time to seek your fortune in Nebraska, Wyoming, Arizona, Idaho, Nevada, or California."

This was symbolic of the spirit of America.

The astronauts of today and the railroaders of 100 years ago have one thing in common. They show that the spirit of the pioneer is an undying human trait. Where freedom to exercise the pioneering instinct exists, we may continue to look forward to great moments of national achievement and progress.

The spirit of the astronauts, which is essentially the spirit of the old pioneers in America a century ago, is the same sort of spirit which has brought our nation to greatness, and the same spirit which must exist if it is to remain truly great. HLH

Inside Labor

By Victor Riesel

Slashing Taxes: Labor Leaders Line Up Forces to Kill Surtax in U.S. Senate This Summer  
Washington, D.C. -- Politically, it's been white hot on the Hill as Labor's lobby massive action squads were led turned on the heat to turn off the taxes.

Laconic, cigar-chomping, sophisticatedly important - to fullback-fashioned AFL-CIO President George Meany hardly organizations. It was plain talk - is the New Left's version of a you want your support this fall revolutionist - but he, behind and in '70, we want your the scenes, did lead the tax revolt and will continue to lead it all summer long.

It will be President Meany against President Nixon in a duel for victory in the Senate over extending the 10 per cent surcharge. Nothing personal, mind you, in this war over the surtax. One of Mr. Meany's most stalwart of colleagues, Paul Hall, leader of the Seafarers International Union says, "We've gotten more reform from Dick Nixon than we've gotten from any president in our time, but over the step. We got it and that's more than we got, for example, from our 'friend' Lyndon Johnson who never told us he would push for the 10 per cent hike. We learned it from the news ticker."

Mr. Hall, a one-man lend-lease system for needy unions was referring to the Low Income Allowance provisions which end taxes for some 5 million persons and lower them for 8 million others.

Impersonal or not, the labor leaders are determined to wipe outmaneuver and outbargain President Nixon. They believe the they actually defeated him in the House by six votes - which were reversed in the final 210 to 205 official tally by Congressmen in a last second change of position.

But the labor chiefs see the razor-edge count as a victory - of a lopsided vote in the House would have killed labor's chances in the Senate. Now they've proved they have clout - and are ready to use it in the 1970 Congressional elections.

They believe they can kill the bill in the Senate sometime in August with he same pressures they used in the House.

Actually, labor threw some 200,000 of its activists into the anti-surtax battle across the nation. These are the political action officials and committeemen in the AFL-CIO 51 State Federations (including Puerto Rico) and the 764 city again central labor councils.

These men are the well, No one need tell him hat avant-garde of Mr. Meany's tax George Meany was right when revolt army. They are the the nation's most influential spokesmen for the AFL-CIO's labor chief said that the best, 14 million tax-wary members, strongest and most effective who almost literally are political machine in the nation is screaming and voting out of labor's political organization. Union and public office those officials who oppose smaller legions passionately behind you budgets.

The 200,000 got special on law and order.

## Scott County Neighborhood

### Youth Corps at Work

Teen-agers in Scott County are sweeping streets, repairing parking meters, filing county records, cleaning rodeo grounds, digging ditches, washing

windows and working with Head Start — for a starter. The Neighborhood Youth Corps program under the Office of Economic Opportunity, is a career starter for teens who need money this summer. Several hundred Southeast Missouri teens are employed from June 2 to August 8 as assistants learning the work as they go, in nonprofit organizations and public agencies. The Economic Opportunity Act provides the funds; local businessmen provide the positions.

These teens are trying to get ahead, and they are going about it by working for wages under a supervisor. Monday and Wednesday nights corpsmen work without pay at all. They attend classes, called "Selective Service" in the Airport Building in Sikeston, learning recreation, arts and crafts. A lecture on drug use is scheduled for this summer.

Many of the youths, age 16 to 21, who applied through high schools, Youth Opportunity Centers and state employment

offices, are working for more than the certificate that will be given by their supervisors on August 8. They are using this program to get valuable work experience, learned responsibility and to learn the value of work which will put them in positions for better jobs later.

COURTHOUSE summer secretaries get a lesson from the record books by County Clerk, Phil Waldman, Jr. From left, Miss Ellen Towensend, Miss Doris Terry, Mr. Waldman, Miss Darlene Penrose, Miss Yvonne Felter and Miss Rita Morrett. All are Benton girls except Miss Morett, Oran.

WASHING WINDOWS at Kelly High School occupies some of the time of Miss Judy Gasteller (left) and Miss Frances Ray, students at the school.

PARKING METERS in downtown Chaffee get new gaskets and oil from Mike Seyer (left) and Charlie Robinson.

MOVING CHAIRS in a classroom is just part of the summer clean-up job for Rawl Martinez (left) and Randy Masterson at Oran High School.

DITCH DIGGING is not easy, but Carl Biby (left) and Bruce White are getting the job done in Chaffee.

### Mother To Search For Daughter

PHILADELPHIA (AP) — A distraught mother has begun a journey to Cuba to bring her 3-year-old daughter back to the United States.

Joanne Washington, 25, last saw her daughter Jennifer Dec. 19 when her estranged husband, Thomas, showed up at her home to take the youngster on a Christmas shopping trip.

The 27-year-old chemist instead spirited the child to Cuba in a Philadelphia-to-Miami Eastern Airlines plane he hijacked.

Last year I met a man who made me come alive after I was sure I had died inside. He finds me interesting and attractive. His marriage is as bad as mine, but he is trapped, as I am, by children, social pressures and financial obligations.

So, my dear husband I am not leaving you, but I am cheating every chance I get and it is keeping me sane. Furthermore, I am healthier and happier than I've been in a good many years. — Your Wife

Dear Wife: You didn't ask for advice so I won't offer it. Here's your letter with no comment.

Dear Ann: A few years ago I loaned a friend \$200. He promised to repay me with interest when he graduated from college.

A few months later he was called into the Army. I felt that so long as he was in service I would not remind him of his obligation.

When he returned he avoided me. I ran into him at the home of a mutual friend. He was embarrassed and said, "I haven't forgotten about the loan." I replied, "Good! I can use the money."

That was a year ago and I haven't seen a dime. Even \$10 a month would look good. What should I do? — Short

Dear Shorty: Write or phone the fellow and ask how soon he can start to make monthly payments against the \$200. As a matter of integrity he should take steps to honor the commitment, no matter how modest the payments.

Dear Ann: Your answer to A.C., the student, was lousy. You told him to "keep plugging away." Why? Are grades that important? I know at least a dozen squares who've never missed the dean's list but they are ignorant when it comes to things that matter. You boomed, Ann. — Adam's Apple

Dear Ad: A.C. was on the verge of flunking out. I advised him to keep plugging. This was boobing?

### Ann Landers 'Cheating' Improves Outlook

Dear Ann Landers: Please print this, but no clue as to where it came from. My letter could have been written by at least five million women. Let their husbands guess.

To The Man I Married: You have accused me of cheating on you. I've denied it because you have no proof and I figure nothing can be gained from a confession. But now I'm ready to admit that your suspicions are right. I've been seeing another man for almost a year. Here's why:

The romance went out of our marriage long ago. You decided that frills, such as kindness, consideration and decent manners, were a waste of time. You let me know my feelings didn't count. If you chose not to come home for dinner, I was expected to "catch on" by 9:00 P.M. and eat alone.

When I found lipstick on your shirt I was supposed to believe it was red marking crayon. You refused to go to church with me because you said you could worship God better on the golf course than with a bunch of hypocrites.

It's been years since we had a real conversation. You are either too busy or too tired to talk. You've made me feel like a drag, a bore, a nuisance and finally, a nothing.

## Mrs. Ramsey Is July's Artist

Mrs. Shirley Ramsey, Bell City, is currently showing her paintings at Two Tony's art gallery.

Mrs. Ramsey, the former Miss Shirley Mitchem, grew up in Southeast Missouri, attending school at Bell City until she moved to Alton during her senior year.

The wife of Verns Ramsey, and the mother of four sons, Mrs. Ramsey has painted for years as a hobby. She has only recently begun to show her paintings, most of which are oils and pastels.

The exhibit at Two Tony's gallery consists of nine pictures, all oils on black pella. Subjects are animal and nature scenes, unusual and interesting.

Mrs. Ramsey has exhibited at the Sikeston Art League Show and the Creative Arts League, Cape Girardeau ("Paintings In The Park") last May.

These paintings will be shown through the month of July. The rotating art exhibit is sponsored by the Sikeston Council on the Arts.

# Cards Streak At Three

By CHARLIE BAROUH

Associated Press Writer ST. LOUIS (AP)—The St. Louis Cardinals began the second half of the season on the right foot and now must hope they have the legs to make up the ground they lost during the first half.

The Cardinals, 12 1/2 games behind the Cubs, beat Chicago three straight over the weekend, including 4-2 and 6-3 victories in Sunday's doubleheader.

Mike Shannon keyed the nightcap victory with a three-run homer off Steve Carlton shomer off a back injury to keep the Cubs in check in the first game. Shannon wasn't about to say "ready or not, here we come," but he gave a

thoughtful nod to the possibility of a comeback. It would take three victories out of every four games, Shannon figured, but at least it's a possibility.

"I'd still like to change places (with the Cubs)," Shannon added. "Don't get me wrong. Anybody that says nothing is an idiot. But different surprises you in this game."

Chicago had taken a 3-2 lead in the top of the third on three unearned runs that drove starter Mike Torrez from the mound. He was replaced by Chuck Taylor, 1-0, who stopped the Cubs on two hits the rest of the way, working on a 5-3 lead following Shannon's third, inning blast.

Cub manager Leo Durocher had little to say

about the weekend and less about the future. "All I can tell you," Leo said, "is that we play again Tuesday night. That's all I can tell you."

Asked if the Cards looked more like the team experts figured them to be, Durocher answered, "You're talking to the wrong man. Ask (Red) Schoendienst (Cardinal manager) it's his club."

Carlton, 10-5, had gone eight innings in the first game before Schoendienst lifted him. Joe Hoerner got the last out after the Cubs scored two runs.

"The first first pitch Carlton threw," Schoendienst said, "he pulled something in his back. He didn't throw well at all. He was struggling there at the end."

## Meredith Retires

By DENNE H. FREEMAN

DALLAS (AP)—The Cotton Bowl won't seem the same this autumn without the Dandy Man, swashbuckling hero to some and butter-fingered villain to others, calling the shots on the playing field.

Don Meredith announced his retirement from professional football Saturday. For 12 years he was THE quarterback in this football mad town—three years at Southern Methodist and nine with the Dallas Cowboys.

He quit at the age of 31—in his prime as a National Football League quarterback. Only last year he rated as the second best quarterback in the NFL statistically.

The anti-Meredith faction took him apart at every opportunity. They claimed he "choked" in the big games. Anything that went wrong with the Cowboys was Meredith's fault, they claimed, including the narrow NFL championship losses to Green Bay.

He was the target of boos and obscenities. Meredith said he didn't pay attention to the fans, but it had to hurt. It bothered his wife, Cheryl.

The pro-Meredith faction—there were many supporters—including Vince Lombardi now coach at Washington, who said Meredith would be one of the "great" quarterbacks in the NFL. Coach Tom Landry of the Cowboys said that on a given day Meredith could be "hotter" than any

quarterback in the game. "When he was on, just look out," Landry said. But Meredith also had his cold streaks. He was inconsistent, and at times his sideline passes looked like wounded geese flopping to the ground.

Part of his inconsistency stemmed from his many injuries. He played with broken noses, sore arms, busted ribs, and torn knees. But Meredith never begged off.

But the championship losses to Green Bay and last year to Cleveland were crushing blows to Meredith's pride.

"I just don't feel like giving 100 per cent anymore," Meredith said. And for No. 17 that would have been blasphemy. He never played the game with anything less than zest and vigor.

Even the boo birds will give him that.

## Cooksey Fires No-Hitter

DEXTER — Few hits were accumulated in baseball and softball play here last week with Mike Cooksey pitching a no-hitter and Mike Ward hurling a one-hitter.

In Little League action, Stovalls downed Harts 4-3 and the Cubs won over Bud Davis 18-0.

Both squads came up with a total of four hits in the opener. Brad Herman took the win from the mound and Larry Fairless took the loss.

No-hitter had its effect on Davis in the second battle as the Cubs took the large margin win.

Joe Satterfield belted the only home run of the game. Cooksey received the win and Gary Bean took the loss.

Green Sleeves took a 16-8 victory from the Caney Caines in softball play.

Sherry Fields slammed the only home run of the game and Debbie Adams belted a triple.

Brenda Barrett took the win from he mound as Janet Millington received the loss.

## DeLay, French

### Post Wins

CHARLESTON — Babe Ruth play here last week saw the DeLay Brothers defeat Ford Implement 7-1 and French Implement down Delta Painting 10-5.

Robert Clark became the leading hitter in the opener as he belted three singles during the contest.

Junior DeLay took the pitching win and Curtis Howard suffered the loss for Ford.

Alvin Pierce was credited with the win in the second game as he fanned 18 of the opposing batters. Terry McClendon was endowed with the loss for Delta.

### Little Leaguers

Large margins separated team scores in Little League play last Friday as the Musial and American divisions took the field.

Opening Musial contest saw Collins overwhelmingly down the Bank of Sikeston 23-5. Mays took the win for Collins.

Daily Standard became Rotary's victim by a score of 14-4. Dement was credited with the win as he hurled a no-hitter.

Initial American contest saw Caproco breeze past Ziegenhorn 13-2 as it becomes a bigger threat to Police for the league title.

Final game resulted in a 13-6 loss for First National at the hands of Leslie with Rofkhar receiving the win.

The young man eager for a job he can get his teeth into should consider that of taste-tester in a taffy factory.

And we couldn't wait to tell you of the fellow who apprenticed himself to a cigar manufacturer. He wanted to learn the ropes.

No, Gwendolyn, horse liniment isn't what you use

when you lose your voice temporarily.

If you'd be known for keeping promises, give them out sparingly.

Lilbourn's Scout Troop No. 50 To Lewallen

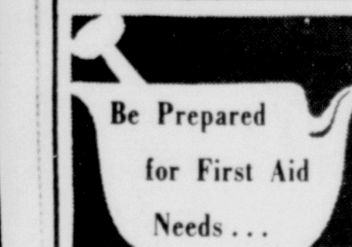

LILBOURN — Twelve scouts of Lilbourn's Troop 50 and their Scoutmaster, Owen J. Taul, will depart Sunday, July 6, for the troop's annual sojourn to Camp Lewallen for a week of camping. The scouts will leave from the local high school building at 12:30 p.m. for the camp located near Silva, Mo. They will return on Saturday afternoon July 12. Ed Beavers will again drive the scout's bus.

Troop 50 was organized in the fall of 1940, with the Lilbourn Kiwanis Club as sponsor. Only one time since 1941 has the troop failed to be represented for a week at Camp Lewallen.

Summer camp offers the scouts a well rounded, balanced program with a well trained adult staff complimented by a junior staff of young men with previous camp experience. The scouts will have an opportunity to complete second and first class requirements and in addition the opportunity is there for the scouts to earn any of the outdoor and aquatic merit badges. Other merit badges are also available.

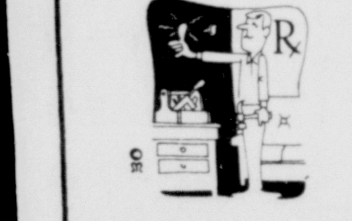

The Order of the Arrow callout ceremonies will be held on Thursday evening, July 10. The Lilbourn troop expects to have two candidates for this camping organization. Several parents plan to visit Camp Lewallen on Thursday afternoon and remain for the call out ceremony.

Wouldn't it be a shame if you saved a pile of money for retirement and there was nothing to retire to?

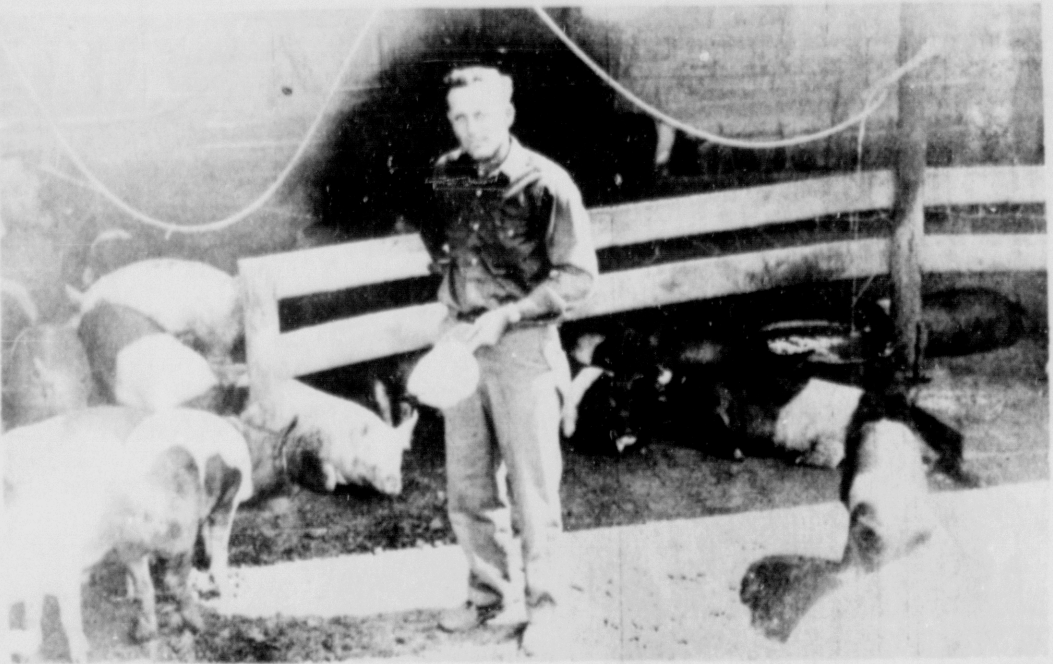

There's only one way to save money that helps insure your country's future at the same time. That's U.S. Savings Bonds. With U.S. Savings Bonds, you're simply helping your country make the future a little better than the present. Also, Savings Bonds are easy and automatic. All you do is fill out a little card through a Payroll Savings Plan where you work. And then you sit back and forget 'em while the money piles up. You don't have to muster up any will-power to save every

payday, because your boss does it for you. It's something like setting up extra paydays for the future. Think about Savings Bonds for your retirement. It's not only a way to insure money for retirement. It's a way to insure retirement.

DHC Residents Hold Gettogether At Circle City

DEXTER — An annual get-together for residents of Delmo Housing Corporation villages throughout Southeast Missouri was held at Circle City Saturday, with some 50 or 60 residents attending.

The picnic - meeting was held in the Community Building in Circle City, about seven miles east of Bloomfield.

Vergie Bullington is chairman of the Women's Club at Circle City, and was in charge of the day's activities. Women from the 10 Delmo villages were present. The housing corporation maintains villages like Circle City at Morehouse, East Prairie, Wyatt, North and South Lilbourn, North and South Wardell, Kennett and Gobler.

Alex Cooper is director of Delmo, and attending the fathering in Stoddard County. Cooper's office is in Lilbourn.

Cooper explained the Delmo function after the picnic Saturday: "We are here to serve the residents of the villages by providing an education program with grants for high school students with academic promise, we provide social services and we provide an outlet for clothing through our thrift shops."

Cooper pointed out that during the past few years, some \$40,000 has gone to educational grants for needy children.

Delmo has a total of 548 homes, but they are owned by their occupants. Delmo originally owned the homes some years ago, but have sold them to occupants.

The crowd Saturday, mainly women, were treated to a chicken dinner prepared by women from Circle City, which was eaten inside the community building and on picnic tables around the building.

Throughout the community building displays showed what the residents can make - crafts from everyday household items and toys for children. In the back of the building is the Thrift Store and a loom and other craft items.

One woman summed the day up: "It's so nice we can all get together with other residents - I just wish we could do it more often."

Jane Morgan and 'Mame' to Opera

ST. LOUIS — Jane Morgan, acclaimed by audiences throughout the world as a versatile and personable star and most recently the star of the Broadway sensation, "Mame," which is now in its 4th spectacular year, will lead the Municipal Opera premiere production of "Mame," opening Monday, July 7, for a 14-night engagement. Performances will be presented nightly at 8:15 through Sunday, July 20.

Sheila Smith, Helen Gallagher and Ed Herlihy, all members of the Broadway "Mame" company, will be starring with Miss Morgan in the respective roles of Vera, Gooch and Babcock. Of the three, Miss Gallagher is the only repeat star on the Municipal Opera stage having been here four previous times. She appeared last as Lola in the 1964 production of "Damn Yankees."

Completing the cast are Jerry Lanning his Broadway role of the older Patrick Dennis, returning for his second Municipal Opera appearance this year, Robert Kaye, Ruth Gillette, Shawn McGill, Arsenio Trinidad, Tom Batten and Louise Kirtland, all previous members of the national touring company of "Mame."

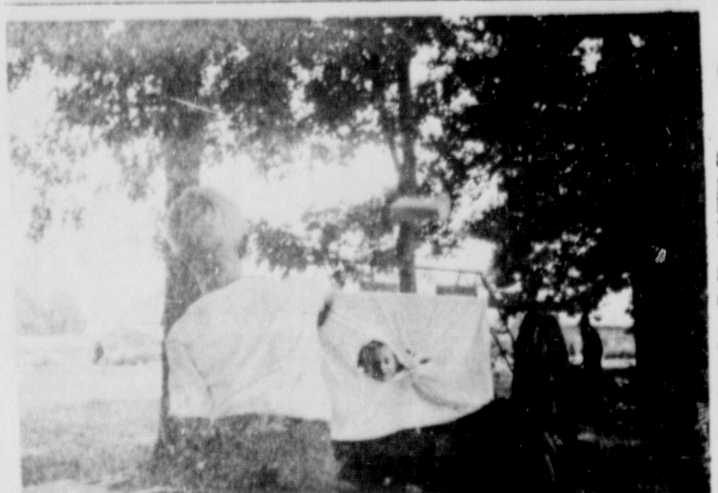

Miss Morgan began her career singing in supper clubs while still a student at Juilliard School of Music in New York. Her career

spans five languages which she speaks fluently, and has taken her around the world through television, stage and recorded performances. This is her third Forest Park appearance having starred here in 1966 as La Mome Pistache in "Can Can" and as Rose in the 1967 production of "Gypsy."

The production will be directed by John Bowab, assistant produce of the original Broadway company, choreographed by Diana Baffa, a member of the original Broadway cast, and under the musical direction of Anton Coppola.

"Mame" is the story of a whimsical aunt who inherits a 10 year-old nephew, raises him through the depression and "Mames" him for life. The musical production is based on the novel "Auntie Mame" by Patrick Dennis, and the stage play of the same name by Jerome Lawrence and Robert E. Lee.

Ten years after the opening of the play, Jerry Herman, musical author of "Hello Dolly" and year, Robert Kaye, Ruth Gillette, "Milk and Honey," was added to the existing duo, and "Mame" was opened on Broadway in 1966. Some of the play's all-time hit tunes are "If He Walked Into My Life," "It's a New Day," "Open a New Window," "We Need a Little Christmas" and the ever popular title song.

Those who attended Kevin Collier's carnival June 30, Bertrand, stand before a sign which publicized the event. From left to right they are Keith Wayne Jobe, 4, Winford Lester, 7, Brenda K. Jobe, 8, Dennis Lloyd Jobe, 9, Kevin Collier, 12, Greg D. Lestar, 10, Jill Sue Collier, 7, Robert Dotson, 10, Melinda Bacchus, 6, Jeniffer Collier, 3, and Sibbus H. Eastwood Junior in the middle rear row.

## Birthday

50 years ago  
July 7, 1919  
Mrs. Sallie Belle Miller  
entertained at her home  
Thursday at a birthday party in  
compliment to her daughter,  
Luella.

During the rain storm  
Saturday night, the lightning  
struck a barn of Dan McCoy's on  
his farm near Brown Spur and  
completely destroyed it. One  
mule belonging to Mrs. Seiffard,  
who lived on the farm was killed  
and one hundred of bushels of  
corn, a binder and other farming  
implements also belonging to her  
were lost.

The relatives of Mrs. John  
Moll surprised her with a  
birthday dinner in the form of a  
picnic Sunday on her 61st  
birthday. They met at the home  
of Edgar Moll and motored to  
Beech Grove at Morehouse and  
spent the day.

Mrs. Guy Myers went to  
Dexter Saturday to ship her  
furniture to Sikeston, where  
they will make their future  
home.

40 yrs ago  
July 7, 1929  
Eddie Mathis, Clarence  
Woodward, George Farris, Bill  
and Jack Bowman and L. M.  
Stromer drove to St. Louis  
Saturday night, returning  
Monday morning.

Emory Rose, Harold  
Ancell and Miss Virginia Hudson  
have been guests since Sunday at  
a house party of friends at the  
Arcade Hotel at West Plains. The  
Sikeston group returned  
Tuesday.

M.E. Montgomery and family  
left by auto Tuesday last for Las  
Cruces, N.M., to visit relatives  
and enjoy a vacation.

Elmos Taylor, known to  
Sikeston housekeepers and  
merchants for the past 16 years  
as driver for Schorle Brothers  
Bakery, announces in this issue  
of The Standard as candidate for  
the position of collector of  
Sikeston.

A surprise birthday dinner  
was given Sunday at the home of  
Mr. and Mrs. Van James of  
Lilbourn, in honor of Mrs.  
Walter Carr and Mrs. J.R. James,  
sr.

The first cotton bloom  
reported for the season was  
brought Monday to The  
Standard office by C.C. Holder,  
who farms three miles south  
of Miner Switch on E.C.  
Matthews Estate land.

Harry C. Blanton celebrated  
his 48th birthday at his mother's  
table on July 5. His first advent  
into this world his parents were  
mighty happy and down his  
pathway to the present day have  
been proud of him and his  
accomplishments. May good  
health be his portion for many  
more birthdays.

C.L. Blanton, jr., of The  
Standard force, is confined to his  
home with a case of mumps  
much to his inconvenience. He  
wishes to thank friends and well  
wishes who sent pickles and  
green apples for his dessert.

Mr. and Mrs. Harold  
Billington of Sikeston  
announced today they have  
purchased the Phillips 66 Cafe  
and Service Station opposite the  
Highway Department building on  
Highway 61 north.

Paul Northington, son of Mr.  
and Mrs. Bill Northington, was  
treated in the office of Dr.  
Chester J. Mellies Saturday for  
burns on the hand received from  
a firecracker accident.

Installation work on modern  
blinker warning lights at the  
Frisco tracks and Highway 60 by  
a railroad crew is expected to be  
completed next week, according  
to highway department officials.  
The lights are being paid from a  
special State Highway  
Department fund.

## Keep It Beautiful

If America hired people for the job, it would take the  
largest sort of army to keep our country free of litter.

But there's no need to hire anyone. It's a job we can  
do for ourselves. All of us. Every family that spreads a  
picnic lunch. Every boatman who cruises the lakes and  
waterways. Every motorist who uses our roads and  
highways.

It is the pleasure of the U. S. Brewers Association  
each year to give its fullest support to the Keep America  
Beautiful Campaign. Remember: Every Litter Bit Hurts.  
This is our land. Let's treat it right.

## Soil Sample Real Tool for Farmer

PORTAGEVILLE — A  
properly taken soil sample is one  
of the best tools you can use to  
put your soil fertility program on  
a sound basis. But a soil test can  
only tell you the availability of  
nutrients in the soil and the  
amount that should be applied  
for top yields.

The high cost of  
production and low prices  
demands that every acre  
produces a top yield. We know  
that many acres do not produce  
well even though a soil test was  
made. Maybe the plant isn't  
getting all the nutrients applied  
for causes such as insects, cold  
soil, herbicide injury, etc.

Until recently there was no  
quick routine method of testing  
plants for nutrient content.  
Nutrients in a plant can now be  
measured by plant tissue  
analysis. This is another tool to  
help farmers avoid nutrient  
element deficiencies and increase  
yields.

Until this growing season, a  
soil test was the only practical  
means for Southeast Missouri  
farmers to check the ability of  
their soil to supply plant food.  
With this new technique, plant  
analysis is available for major  
crops grown in the Delta. Plant  
analysis does not replace the  
need for a soil test. Rather it  
provides additional information  
to supplement soil tests to help  
farmers increase yields.

The three main objectives for  
running a plant tissue analysis  
are:

(1) To determine how  
effectively fertilizer treatment  
and soil supply are meeting the  
plant's needs for nutrients.

Paul Trotter, former manager  
of the state employment and  
security office here, has been  
appointed assistant farm  
placement supervisor for the state.

and with many of his associates and, best of all, access to  
his private letter files.

The result is a big book (8½ by 11 inches, 264 pages,

Gunda Samples, Lilbourn displays an example of her needlework. She and her  
husband, Leman are models of successful Farmers Home Administration planned  
farming and credit management.

Suggested plant sampling  
procedure for plant analysis:  
Crop, stage of growth, plant  
part, number of plants to  
sample:

Corn, prior to tasseling,  
whole plant or fully developed  
leaf below whorl ear leaf, 15-25.  
Sorghum, 2nd leaf from top  
just as head is fully emerged,  
15-25.

Soybeans, 1st bloom, select  
1st fully developed trifoliate leaf  
below top of plant. Remove and  
discard stems. Enclose leaves  
only, 35-50.

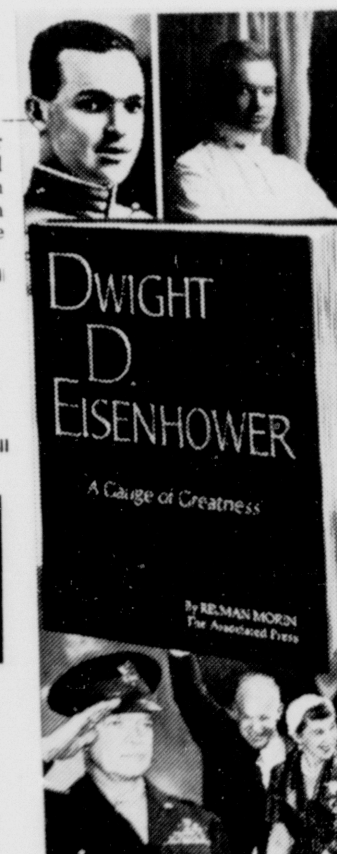

Cotton, when bolls start to  
set, most recently matured  
leaves, 35-50.

Put plant parts in clean kraft  
paper sack. Leave them loose to  
allow for air drying. Do not wad  
or tie the leaves into a bundle or  
put in plastic sacks. Heating and  
molding may occur. Do not  
close the bag after the sample  
has been collected. Take sample  
immediately to your University  
Extension Center, Soil Testing  
Laboratory, Portageville, or air  
dry sample and deliver or mail it  
to the laboratory at Portageville.  
Send check with sample.

When drying, select a room or  
shed as free of dust as possible.  
Avoid areas where chemicals are  
stored. Place open bag on clean  
wooden surface. When tissue is  
as dry as well cured hay, it can  
be mailed. Normally this will  
require 24 to 48 hours. After the  
laboratory receives the sample it  
will be oven dried, ground and  
analyzed. Results should be  
returned to sender in 7 to 10  
days.

## What Judgment Will History Pass on General Eisenhower?

Here is what Helman Morin, two-time Pulitzer prize win-  
ner, says in the first full length, complete biography of the  
man:

"Eisenhower goes into history  
as one of the most popular of  
Presidents, in whom Americans  
recognized an earnest, kindly,  
sincere man of unquestionable  
integrity.

"As a politician he was almost  
unique in that he was wholly  
without the 'jugal instinct,' the  
urge to destroy an enemy; he  
was more prone to turn the  
other cheek.

"He also was one of the most  
selfless Presidents, less  
concerned with his popularity and  
the expedient actions that might  
enhance it than what he consid-  
ered the well being of the United  
States and her allies.

"When Eisenhower came to  
office, bitterness and rancor di-  
vided the nation; when he left, an  
era of good feeling had replaced  
the sense of divisiveness. The  
credits far outweighed the  
debts in his presidency."

Morin's judgment is based on long professional and personal  
acquaintance with the general, and on a year's study  
and research, which included long conversations with him  
and with many of his associates and, best of all, access to  
his private letter files.

The result is a big book (8½ by 11 inches, 264 pages,

## POST OFFICE AWARDS

If You Were the Judge

## CONTRACT FOR

BERTRAND POST OFFICE

## Credit Card Causes Trouble

WASHINGTON, D.C. - 10th  
District Congressman, Bill D.  
Burlison of Cape Girardeau,  
today announced that he has  
been informed by the Post  
Office Department that a  
contract has been awarded for  
the construction of a new Post  
Office facility at Bertrand,  
Missouri. The successful bidders  
were Mr. and Mrs. Hoarce  
McKinley of Bertrand.

The new Post Office will be  
located on the northeast corner  
of Olive and Cedar streets. The  
interior will contain 1,056  
square feet of floor space, plus  
20,160 square feet of exterior  
parking space.

The Post Office Department  
will lease the new building for  
five years with 3 five-year  
options. The estimated cost of  
construction is \$18,020. The  
rent will be \$1,800 annually.  
The one-story air conditioned  
building is scheduled for  
completion in November of this  
year.

By Jack Strauss, LL.B.  
At six bits a shot, Tightwad Teddy remained a confirmed  
teatotaler. But then he obtained a credit card and his whole  
outlook changed. Not required to reach into his pocket for hard  
cash, he became a bar fly on the strength of his signature.

Provoked that the card wasn't revoked, Teddy's widow sued  
the credit card company for the death of her husband.  
"The only reason that Teddy became an alcoholic," she  
complained in court, "was because he could charge his drinks. Had  
his card been cancelled, as I demanded, he'd still be here sipping  
tea with me."

"How a customer uses his credit card," answered an official of  
the company, "isn't our problem. While we try to save our  
customers from inconvenience with others, we're not required to  
save our customers from themselves."

IF YOU WERE THE JUDGE, would you hold the credit card  
company liable for enabling Teddy to become an alcoholic?  
This is how the judge ruled: NO! The judge held that a credit  
card company cannot be blamed for how a customer uses his  
credit. In this case, concluded the judge, the company had done  
nothing to cause Teddy to become an alcoholic.

Today In U.S. History

By THE ASSOCIATED PRESS  
Today is Monday, July 7, the 188th day of 1969. There are 177 days left in the year.

Today's highlight in history: On this date in 1937, the Sino Japanese War began with a clash between Japanese and Chinese soldiers at the Marco Polo Bridge near Peking, China.

On this date: In 1801, the Negro General, Toussain L'Ouverture, proclaimed Haiti's independence from France.

In 1846, the American flag was raised at Monterey, Calif., after the Mexican garrison surrendered, and the U.S. annexation of California was proclaimed.

In 1865, four persons were hanged after being named as accomplices of John Wilkes Booth in the assassination of President Abraham Lincoln.

In 1898, the United States annexed the Hawaiian Islands.

In 1941, during World War II, U.S. forces landed in Iceland to forestall any Nazi invasion.

In 1968, President Dwight D. Eisenhower signed the Alaska statehood bill.

Ten years ago — Burma had reversed a six-year-long refusal to accept U. S. aid.

Five years ago — An avalanche in the French Alps killed 14 mountain climbers.

One year ago — East German border police gunned down two persons trying to cross the Berlin Wall to reach West Berlin.

### #1 Cont. from Page 1

Perry County Memorial Hospital were Mrs. Eunice Stehr, 41, bruises and possible leg injury; Miss Janet Stehr, 17, cuts over the left eye; and Richard Stehr, 16, broken nose.

Loren L. Steele lost control of his 1964 Chevrolet station wagon as he rounded a curve and went off a six-inch dropoff. The Chevrolet went to the left lane and struck head-on, a 1968 Pontiac driven by Phillip Stehr, 42, of St. Louis.

Three were injured at 6:30 a.m. today on I-55, a half-mile south of Sikeston in a one-car accident.

Miss Barbara Jean Conley, 13, Magnolia, Miss., was treated at Missouri Delta Community Hospital for a sprained ankle. Mrs. Emma Stewart, 27, Minneapolis, and Miss Claudette Williams, 17, Magnolia, Miss., were treated for bruises.

Ernest Stewart, 30, of Minneapolis, was driving a 1967 Ford when he apparently went to sleep, drove off the median and struck a concrete abutment. He will be given a summons for careless and imprudent driving, highway patrol said.

Two were sent to a Normandy hospital as a result of an accident at 7:30 a.m., Sunday on Hwy. 61, south of Brewer in Perry County.

Injured were Mrs. Carolyn Quinn, 23, who had a neck injury and possible internal injuries; and Vandy Quinn, 21 months, with cuts on the face and arms.

A 1966 Mustang, driven by William Dennis Quinn, 25, Berkeley, moved to the left lane from behind a car, when another car pulled out at the same time, causing the Mustang to run off the highway and overturn. Quinn received bruises.

Seven persons were injured in four accidents Saturday.

Theodore Johnson, Jr., 16, was taken to Dunklin County Memorial Hospital, Kennett, with head cuts. At 4:30 p.m., Saturday on Route 62, five miles west of New Madrid, Theodore Johnson, Sr., Las Vegas, driver of a 1969 Dodge, attempted to pass a 1965 Ford which was making a left turn. The Ford was driven by Donald Franklin Davis, 25, New Madrid.

Both cars ran into a ditch.

T. C. Williams, 26, Charleston received minor facial injuries and was treated by a Charleston physician as a result of an accident Sunday. At 5 p.m. on I-55, two miles north of Matthews, Williams apparently went to sleep, crossed the median and hit a ditch on the west side of the road.

Thomas Jurl Hamlin, 20, Sturdivant, and George Sparkman, were taken to the Doctors Hospital, Poplar Bluff as a result of a two-car accident at 10:55 p.m. Saturday on Route KK, near Lake Wappapello. Hamlin received cuts and bruises on the left arm, and Sparkman, a passenger in the Henderson car, received chest injuries. Hamlin's 1960 Chevrolet, went across the center line and struck head-on a 1961 Chevrolet, driven by Larry D. Henderson, 19, Quin. Hamlin will be given a summons for driving while intoxicated, the highway patrol said.

Two were injured at 11:45 p.m. Saturday at Leora at junction of route K and M in Stoddard County.

A 1967 Pontiac, driven by Dennis Lancaster, 20, Perkins, skidded through the intersection and struck an embankment.

Injured were two passengers, JoAnn McCulley, 16, Bell City, with head injuries; and G. Parker, 18, Bell City, with cuts on the forehead.

The patrol said Lancaster would be given a summons for driving while intoxicated.

Four Homes Burned  
In New Madrid Fire

NEW MADRID -- Four houses were destroyed and one was severely damaged Friday in a fire of undetermined origin on Brush Prairie road. Twenty-nine persons were left homeless.

The fire began at 1:15 p.m. at the home of Caroline Fisher, who was not at home. The fire spread from the Fisher home to the homes of Gertrude Kellams, Johnnie Mae Holmes, Bertha Burgess and Willie Bell Brown. Willie Mae Davis owned the houses.

At 6:15 p.m. Saturday, the home of Wallace Byrd, 302 Tennessee, St., was damaged by fire.

## Radiated Food Project Shelved

WASHINGTON (AP) -- The once-heralded use of radiation to extend the shelf life of foods has been shelved by the Agriculture Department.

An order to meat packers last week followed an earlier determination by the Food and Drug Administration that gamma radiation needed more study as a preservative process for meat products such as canned bacon.

Bacon was the last product authorized for radiation testing. A decade ago the Army, with cooperation of the Atomic

Energy Commission, launched an ambitious food irradiation project.

Sample quantities of a variety of foods were treated and test eaten. High military officials pronounced the irradiated rations tasty, but lower ranking military people were less enthusiastic.

Irradiated food was never produced in commercial quantities. Now the government says more data on possible health hazards will be required before it will approve production for general consumption.

## Story Hour Tomorrow

"Fluffy and the Fly-Away" is the book Mrs. Jeanne Weichand will read to children at the Public Library's Story Hour tomorrow.

Also, she will show two films, "The Monkey Who Would Be King" and "King Midas and the Golden Touch."

The Children's Story Hour will continue through July 24.
